any law, rule, or regulation of the United States; by deleting the words “within the state” from the phrase “in connection with any surface coal mining operation within the state during the three-year period”; by deleting the words “shall include in” from the phrase “shall include in the schedule”; and by adding the words shown in italics to the revised phrase “the schedule shall indicate the final resolution of any such notice of violation.” Texas proposes to add new language requiring that the schedule include notices of violations of Federal regulations or Federal or state programs adopted under SMCRA. Texas is, also, revising the existing second sentence by deleting the phrase “or that the notice of violation is being contested by the applicant” and adding the phrase “or other laws referred to in this subsection” after the phrases “with a demonstrated pattern of willful violations of this Act” and “with such resulting irreparable damage to the environment as to indicate an intent not to comply with this Act.”

5. Article 5920-11, TSMCRA, Section 21a, Suspension or Rescission of Improvidently Issued Permits

Texas proposes to add a new section which authorizes the Commission to adopt and enforce rules relating to suspension or rescission of improvidently issued permits that are consistent with and no less effective than Federal regulations adopted under SMCRA.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Texas program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter’s recommendations. Comments received after the time indicated under DATES or at locations other than the Tulsa Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to speak at the public hearing should contact the person listed under FOR FURTHER INFORMATION CONTACT by 4 p.m., c.d.t., on October 5, 1995. The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to speak at the public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to speak have been heard. Persons in the audience who have not been scheduled to speak, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to speak and persons present in the audience who wish to speak have been heard.

Any disabled individual who has need for a special accommodation to attend a public hearing should contact the individual listed under FOR FURTHER INFORMATION CONTACT.

Public Meeting

If only one person requests an opportunity to speak at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting by contacting the person listed under FOR FURTHER INFORMATION CONTACT. All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed under ADDRESSES. A written summary of each meeting will be made a part of the Administrative Record.

IV. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submission is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

SUPPLEMENTARY INFORMATION:

I. Background on the Texas Program

On February 16, 1980, the Secretary of the Interior conditionally approved the Texas program. General background information on the Texas program, including the Secretary’s findings, the disposition of comments, and the conditions of approval can be found in the February 27, 1980, Federal Register (45 FR 12998). Subsequent actions concerning the Texas program can be found at 30 CFR 943.10, 943.15, and 943.16.

II. Description of the Proposed Amendment

By letter dated August 31, 1995 (Administrative Record No. TX–596), Texas submitted a proposed amendment to its program pursuant to SMCRA. Texas submitted the proposed amendment at its own initiative. The provisions of Texas Coal Mining Regulations (TCMR) at 16 Texas Administrative Code (TAC) 11.221 that Texas proposes to amend is TCMR 779.137(l). TCMR 779.137(l) cross sections, maps, and plans.

Specifically, Texas proposes to revise TCMR 779.137(l) to allow professional biologists to certify, as appropriate, cross sections, maps, and plans included in a surface mining permit application.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Texas program.

SUPPLEMENTARY INFORMATION:

I. Background on the Wyoming Plan

On February 14, 1983, the Secretary of the Interior approved the Wyoming plan. Wyoming has subsequently submitted numerous amendments to its plan, including a proposed amendment in the May 18, 1995, Federal Register (60 FR 26704), providing an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. WY–AML–18–8). Wyoming submitted the proposed amendment at its own initiative. The provisions of the Wyoming plan that the State proposed to revise were:

Wyoming Statute (W.S.) 35–11–1206 (a) and (b), liens for reclamation on private lands, and W.S.35–11–1209, contractor eligibility.

OSM announced receipt of the proposed amendment in the May 18, 1995, Federal Register, provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. WY–AML–18–9). The public comment period ended on June 19, 1995.

During its review of the amendment, OSM identified concerns relating to the provisions of W.S.35–11–1206(a) that limit the amount of any lien to the cost of reclamation work or to the amount determined by the appraisal to be the increase in the fair market value of the land as a result of the restoration, reclamation, abatement, control or prevention of the adverse effects of past coal or noncoal mining practices, whichever is less. OSM also identified concerns relating to the provisions of W.S.35–11–1206(b) that provide that the amount reported to be the increase in the value of the land, but not exceeding the cost of the reclamation work, shall constitute the amount of the lien. OSM notified Wyoming of the concerns by letter dated August 8, 1995 (administrative record No. WY–AML–18–16).

Wyoming responded in a letter dated August 29, 1995, by submitting additional explanatory information concerning W.S. 35–11–1206 (a) and (b) and the inclusion of the cost of reclamation in determining the amount of the lien to be placed on reclaimed lands (administrative record No. WY–AML–18–17). In its response, Wyoming stated that when proposed W.S. 35–11–1206 was presented to the Wyoming legislature, there was considerable debate on it with regard to a potential governmental takings if the property owner had to pay a lien amount that...
