DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Information Resources Group, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before November 24, 1995.

ADDRESSES: Written comments and requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, SW., Room 5624, Regional Office Building 3, Washington, DC 20202-4651, or should be electronic mailed to the internet address #FIRB@ed.gov, or should be faxed to 202-708-9346.

FOR FURTHER INFORMATION CONTACT: Patrick J. Sherrill (202) 708-8196.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Department of Education (ED) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's

ability to perform its statutory obligations. The Director of the Information Resources Group, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. ED invites public comment at the address specified above. Copies of the requests are available for Patrick J. Sherrill at the address specified above.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: September 20, 1995.

BILLING CODE 6717-01-P

[Docket No. CP95-614-000]

Paiute Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Paiute LNG Project and Request for Comments on Environmental Issues

September 19, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the construction and operation of facilities proposed in the Paiute LNG Project. This EA will be used by the Commission in its decision-making process to determine whether an environmental impact statement is necessary and whether to approve the project.¹

Summary of the Proposed Project

Paiute Pipeline Company (Paiute) is seeking approval to construct and operate a 300-gallon-per-minute truck unloading facility at its liquefied natural gas (LNG) storage facility near Lovelock, Pershing County, Nevada. The purpose of the project is to give Paiute the ability to provide its LNG storage service customers with additional options for helping to meet their peak demand, emergency, or other requirements.

The LNG truck unloading facility would include transfer piping, valves, and appurtenant facilities. The proposed truck unloading station would be able to unload six 10,000-gallon tankers per day for the equivalent of 5,000 MCF per day.

The proposed project facilities would be designed, constructed, and maintained to comply with the U.S.

Department of Transportation Federal Safety Standards for Liquefied Natural Gas Facilities (49 CFR Part 193). The facilities would also meet the National Fire Protection Association 59A LNG standards.

LNG would be transported to the site by LNG tanker trucks. The preferred routing from eastern locations would be to exit Interstate 80 (I-80) at exit 107 onto Cornell Avenue to 14th Street. The route would turn north on Central Avenue, continuing to Pitt Road. A westerly turn onto Pitt Road would lead the trucks directly to the LNG Plant. For traffic from the west, the preferred route would be to exit I-80 at exit 105, then continue through the commercial portion of Lovelock via Cornell Avenue to 14th Street, and then as above. This route would avoid any grade level crossing of the Southern Pacific Railroad tracks.

As an alternative, all trucks could be routed off I-80 at exit 112, follow an alternative route that runs southwest on Upper Valley Road, and then west on Pitt Road. However, this route does require a grade level crossing of the Southern Pacific Railroad tracks at exit 112.

The location of the project facilities is shown in appendix 1.²

Land Requirements for Construction

The proposed facilities would be constructed within the 20-acre, previously-disturbed, fenced LNG plant site.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. We call this "scoping". The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission requests public comments on the scope of the issues it will address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents

²The appendices referenced in this notice are not being printed in the Federal Register. Copies are available from the Commission's Public Reference and Files Maintenance Branch, Room 3104, 941 North Capitol Street, N.E., Washington, D.C. 20426, or call (202) 208-1371. Copies of the appendices were sent to all those receiving this notice in the mail.

of this proposed action and encourage them to comment on their areas of concern.

The EA will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Vegetation and wildlife
- Cultural Resources
- Land Use
- Air Quality and Noise
- Public Safety

We will also evaluate possible alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we recommend that the Commission approve or not approve the project.

Public Participation and Scoping Meetings

You can make a difference by sending a letter addressing your specific comments or concerns about the project. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative trucking routes), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please follow the instructions below to ensure that your comments are received and properly recorded:

- Address your letter to: Lois Cashell, Secretary, Federal Energy Regulatory Commission, 825 North Capitol St., NE, Washington, DC 20426;
- Reference Docket No. CP95-614-000;
- Send a *copy* of your letter to: Mr. James Dashukewich, EA Project Manager, Federal Energy Regulatory Commission, 825 North Capitol St., NE, Room 7312, Washington, D.C. 20426; and
- Mail your comments so that they are received in Washington, D.C. on or before October 19, 1995.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to
