

become an official party to the proceeding or an "intervenor". Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide copies of its filings to all other parties. If you want to become an intervenor, you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2).

Filing of timely motions to intervene in this proceeding should be made on or before September 25, 1995. Once this date has passed, parties seeking to file late interventions must show good cause, as required by Section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your scoping comments considered.

Environmental Mailing List

This notice is being sent to all potential interested parties to solicit focused comments regarding environmental considerations related to the proposed project.

If you do not want to send comments at this time but still want to keep informed and receive copies of the EA, please return the Information Request (see appendix 3). If you do not return the Information Request, you will be taken off the mailing list.

Additional information about the proposed project is available from Mr. James Dashukewich, EA Project Manager, at (202) 208-0117.

Sayles Hydro Associates; Notice of Availability of Environmental Assessment

September 19, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) Regulations, 18 CFR part 380 (Order 486, 52 FR 47897), the Commission's Office of Hydropower Licensing has reviewed a non-capacity related amendment of license for the Sayles Flat Hydroelectric Project, No. 3195-064. The Sayles Flat Project is located on the South Fork American River in El Dorado County, California. The plan is for the

removal of project facilities and restoration of the site. An Environmental Assessment (EA) was prepared for the plan. The EA finds that approving the plan would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street NE., Washington, DC 20426.
