## Department of the Navy

### Public Hearing for Draft Environmental Impact Statement on Realignment of Naval Air Station Miramar, CA

Pursuant to Council on Environmental Quality regulations (40 CFR Parts 1500-1508) implementing procedural provisions of the National Environmental Policy Act, the Marine Corps has prepared and filed with the U.S. Environmental Protection Agency the Draft Environmental Impact Statement (DEIS) for realignment of

Naval Air Station (NAS) Miramar, California.

A public hearing to inform the public of the DEIS findings and to solicit comments will be held on October 18, 1995, beginning at 6:00 pm, in the Tierrasanta Elementary School Auditorium, located at 5450 La Quenta Drive, San Diego, California.

The public hearing will be conducted by the Marine Corps. Federal, state, and local agencies and interested parties are invited and urged to be present or represented at the hearing. Oral statements will be heard and transcribed by a stenographer; however, to assure accuracy of the record, all statements should be submitted in writing. All statements, both oral and written, will become part of the public record on this study. Equal weight will be given to both oral and written statements.

In the interest of available time, each speaker will be asked to limit their oral comments to five minutes. If longer statements are to be presented, they should be summarized at the public hearing and submitted in writing either at the hearing or mailed to the address listed at the end of this announcement. All written statements must be postmarked by October 29, 1995, to become part of the official record.

The DEIS has been distributed to various Federal, State, and local agencies, elected officials, and civic associations and groups. A limited number of single copies are available at the address listed at the end of this notice.

In accordance with the Defense Base Closure and Realignment Act of 1990 and the specific base closure and realignment decisions approved by the president and accepted by Congress in September 1995, the proposed action is the realignment or conversion of NAS Miramar to Marine Corps Air Station (MCAS) Miramar. The proposed action relocates aircraft and associated assets from MCAS Tustin and MCAS El Toro, which are closing, to NAS Miramar. Alternatives considered in the DEIS include: no action, relocation of aircraft and assets to other air stations that meet operational requirements, and relocation of aircraft and assets to NAS Miramar. Alternative configurations of facilities at NAS Miramar were also evaluated. The proposed action will have impacts on noise, endangered species, and air quality.

Additional information concerning this notice may be obtained by contacting LtCol George Martin or Mr. Bruce Shaffer, Base Closure and Realignment Office, Marine Corps Air Station El Toro, Santa Ana, CA 92709, telephone (714) 726-2338.

Dated: September 19, 1995.

Robert Watkins,  
*Head, Land Use and Military Construction Branch, Facilities and Services Division, Installations and Logistics Department.*

By direction of the Commandant of the Marine Corps.

**Notice of Intent To Prepare an Environmental Impact Statement for Proposed Disposal and Reuse of the Naval Air Warfare Center Aircraft Division, Warminster, PA**

Pursuant to the National Environmental Policy Act (NEPA) as implemented by the Council on Environmental Quality (CEQ) regulations (40 CFR Parts 1500-1508), the Department of the Navy announces its intent to prepare an Environmental Impact Statement (EIS) to evaluate the potential environmental effects of the disposal and reuse of the Naval Air Warfare Aircraft Center Aircraft Division (NAWCAD), Warminster, Pennsylvania. The NAWCAD is located in Bucks County approximately 18 miles north of Center City Philadelphia and 15 mile west of the New Jersey/Pennsylvania state line. The NAWCAD's mission has been the principal Navy research, development, test and evaluation center for naval aircraft systems, and for airborne and anti-submarine warfare systems.

In accordance with the decision of the Base Closure and Realignment Commission in 1993 and 1995, acting under the provisions of the 1988 Base Close and Realignment Commission Act (commonly known as the BRAC legislation), the Navy plans to close and dispose of the NAWCAD. The majority of the existing aircraft systems research, development, test, and evaluation (RDT&E) functions are to be relocated to the Naval Air Test Center, Patuxent River, Maryland. The proposed action to be analyzed in the EIS involves the disposal of land, buildings, and infrastructure for subsequent reuse.

A reuse plan developed by the Bucks County Economic Adjustment Committee (EAC) and Base Reuse Subcommittee will be the preferred alternative presented in the EIS. The proposed reuse plan is designed to be market-driven, to capitalize on the site's assets, and minimize the impacts of the site's constraints. The major elements of the reuse plan are: incubator research and development (R&D) and educational use of the developed areas on either side of Jacksonville Road; new industrial/business/office R&D complex (159 acres)

on the undeveloped area at Jacksonville Road and Street Road frontages; park and recreation uses (258 acres); university/institutional land (84 acres) to support a new college with approximately 2,000 students; and a major new spine road linking the site and providing new access points to the site. Other reuse plan elements include the following: senior congregate care site (38 acres) providing health and living care opportunities; Navy retained housing; residential lands (39 acres) in Ivyland Borough; municipal lands for Warminster Township use (24 acres); hotel/conference center site (10 acres); and additional lands for roadways and easements.

The EIS to be prepared by the Navy will address the following known areas of concern: effects of new development at the NAWCAD on the regional socioeconomic environment, potential effects on infrastructure and transportation systems, and the effects of reuse on any historic properties on-site. Additionally, potential impacts to the natural environment that will be addressed in the EIS include, but are not limited to, air quality, water quality, hazardous materials, wetlands, and endangered species.

The Navy will initiate a scoping process for the purposes of determining the scope of issues to be addressed and for identifying significant issues related to the proposed reuse. The Navy will hold a public scoping meeting on Wednesday, October 12, 1995, beginning at 7:30 pm at the Longstreth Elementary School, 999 Roberts Avenue, Warminster, Pennsylvania. This notice will also appear in local papers.

A brief presentation will precede a request for public comment and will include a general description of the proposed reuse plan developed by the Bucks County Economics Adjustment Committee. Navy representatives will be available at this meeting to receive comments from the public regarding issues of concern to the public. It is important that federal, state and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed during the preparation of the EIS. In the interest of available time, each speaker will be asked to limit oral comments to 5 minutes.

Agencies and the public are also invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the public meeting. To be most helpful, scoping comments should clearly describe specific issues or topics that the commenter believes should be
