Number of Respondents: 2,100.

Estimated Time Per Response: 20 hours.

Total Annual Burden: 42,000 hours.

The FCC Form 1235 "Abbreviated Cost of Service Filing for Cable Network Upgrades", is to be used by cable operators when undertaking these upgrades. This form allows cable operators to justify rate increases related to capital expenditures used to improve services to regulated cable subscribers. Operators wishing to establish a network upgrade rate increase should file this form following the end of month in which upgrade cable services become available and are providing benefits to the customers. In addition, this form can be filed for pre-approval any time prior to the upgraded services becoming available to the subscribers using projected upgrade costs. If the pre-approval option is exercised, the operator must file the form again following the end of the month in which upgrade cable services become available and are providing benefits to customers of regulated services, using actual costs where applicable.

FCC Report 43-09A was adopted by the Common Carrier Bureau to establish reporting requirements on video dialtone costs and jurisdictional separations for local exchange carriers offering video dialtone service. The report is prescribed for every local exchange carrier that has obtained Section 214 authorization from the Commission to provide video dialtone trials or commercial services.

Affected carriers shall file by June 30, September 30, and December 31 of each year the report for the previous quarter. The initial report will be filed on the last day of the calendar quarter after the end of the calendar quarter in which a carrier received authorization. The report shall be filed on a study area basis.

FCC Report 43-09A provides a quarterly report of wholly dedicated and shared video dialtone investment, expense, and revenue captured in a carrier's subsidiary accounting records. The report line items generally follow those provided in existing FCC Report 43-01, ARMIS Quarterly Report, with minor exceptions. The report columns identify data for each line item by dedicated video dialtone costs and revenues, shared costs and revenues, and video dialtone's portion of shared costs and revenues.

FCC Report 43-09B was adopted by the Common Carrier Bureau to establish reporting requirements on video dialtone costs and jurisdictional separations for local exchange carriers offering video dialtone service. The report is prescribed for every local exchange carrier that has obtained Section 214 authorization from the Commission to provide video dialtone trials or commercial services.

Affected carriers shall file by March 31 of each year the report for the fourth

calendar quarter. The report shall be filed on a study area basis.

FCC Report 43-09B provides a fourth quarter report of video dialtone investment, expense, and revenue disaggregated by regulated and nonregulated classification and by jurisdictional categories. The reports summarize the impact of video dialtone on the interstate and intrastate jurisdictions and local telephone rates. The report line items generally follow those provided in existing FCC Report 43-01, ARMIS Quarterly Report, with minor exceptions. The report columns identify data for each line item by total costs and revenues, dedicated video dialtone costs and revenues, shared costs and revenues, video dialtone's portion of shared costs and revenues, total video dialtone costs and revenues, video dialtone's percentage of total costs and revenues, nonregulated and nonregulated video dialtone costs and revenues, and video dialtone costs and revenues subject to separations and those allocated to the intrastate and interstate jurisdictions. OMB approval for these reporting requirements is being requested by September 29, 1995.

OMB Control No.: None.

Title: ARMIS Video Dialtone Quarterly Report; ARMIS Video Dialtone Fourth Quarter Report.

Form Nos.: FCC Report 43-09A; FCC Report 43-09B.

Action: New collection.

Respondents: Businesses or other for-profit.

Frequency of response: Quarterly.

Estimated Annual Burden: 10 respondents; average 462 hours per respondent; 4,620 hours total annual burden.

Needs and Uses: This information is being collected in conjunction with the Common Carrier Bureau's Order Inviting Comment, DA 95-1409, AAD No. 95-59 (released June 23, 1995), that proposed the content and format of video dialtone reports initiated by the Commission's Video Dialtone Reconsideration Order, 10 FCC Rcd 244 (November 7, 1994). The reports will enable the Commission, State regulatory agencies, local exchange carriers ("LECs"), and other interested parties to analyze LECs' video dialtone investment, revenue, and costs. Specifically, the data will allow the Commission to monitor the implementation of video dialtone service, to assist the Commission in ensuring that local telephone service ratepayers do not absorb any of the costs of a LEC's video dialtone operations, to track the impact of video dialtone on jurisdictional separations and local

telephone rates, and to aid the Commission in its tariff review process.
