Amendments To Reflect Bureau Name Changes and To Make Other Editorial Changes

AGENCY: Federal Communications Commission.

ACTION: Final rules.

SUMMARY: On September 19, 1995, the Deputy Chief, Wireless

Telecommunications Bureau adopted an *Order* that reflected the new names in the Commission's organizational structure and corrected typographical errors. The *Order* was released September 20, 1995. The amendments were necessary so that users of rules would have information that is accurate. The effect of the rule amendments is to give members of the public rules that are current and that can be relief on.

EFFECTIVE DATE: October 31, 1995.

FOR FURTHER INFORMATION CONTACT: Maurice J. DePont of the Wireless Telecommunications Bureau at (202) 418-0690.

SUPPLEMENTARY INFORMATION: Order

Adopted: September 19, 1995.

Released: September 20, 1995.

In the Matter of: Amendment of Parts 80, 90, 95 and 97 of the Commission's Rules to reflect Bureau name changes and to make other editorial changes.

By the Deputy Chief, Wireless Telecommunications Bureau:

1. By this action, we are editorially amending various rules in the rule parts shown in caption. The amendments are necessary to reflect the new names in the Commission's organizational structure and correct typographical errors.

2. Because the rule amendments adopted herein are nonsubstantive in nature, the notice and comment provisions of Section 553 of the Administrative Procedure Act, 5 U.S.C. 553, are inapplicable. Authority for this action is contained in Section 0.331(a)(1) of the Commission's Rules, 47 C.F.R. 0.331(a)(1), and 47 U.S.C. 154(i) and 303(r).

3. Accordingly, Parts 80, 90, 95 and 97 of the Commission's Rules, 47 C.F.R. Parts 80, 90, 95 and 97, 47 C.F.R. Parts 80, 90, 95 and 97 ARE AMENDED, effective October 31, 1995, as set forth below.

49 CFR Part 571

[Docket No. 94-70, Notice 3]

RIN 2127-AF35

Federal Motor Vehicle Safety Standards; Door Locks and Door Retention Components

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This final rule amends the Federal motor vehicle safety standard pertaining to door locks and door retention components. This rule extends the standard's requirements, currently applicable only to side doors, to the back doors of passenger cars and multipurpose passenger vehicles (MPV) so equipped, including hatchbacks, station wagons, sport utility vehicles, and passenger vans, with a gross vehicle weight rating (GVWR) of 4,536 kilograms (kg) (10,000 pounds) or less.

Further, to allow for differences between side doors and back doors, including the different directions in which they open in relation to the vehicle, this rule amends certain performance requirements and test procedures to make them appropriate for back doors. Extension of the standard to back doors will reduce the likelihood of occupants being ejected through the back doors of vehicles in the event of a crash, thereby reducing fatalities and serious injuries.

DATES: This final rule is effective September 1, 1997.

The incorporation by reference of the Society of Automotive Engineers material listed in this document is approved by the Director of the Federal Register.

Any petition for reconsideration of this rule must be received by NHTSA not later than October 30, 1995.

ADDRESSES: Petitions for reconsideration should refer to the docket and notice numbers noted above for this rule and be submitted to Docket Section, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Room 5109, Washington, DC 20590. Docket hours are from 9:30 a.m. to 4:00 p.m., Monday through Friday. Telephone (202) 366-4949.

I. Background

(a) *Current Provisions*

Federal Motor Vehicle Safety Standard (Standard) No. 206, *Door locks and door retention components* (49 CFR 571.206), specifies performance requirements for side door locks and retention components including latches, hinges, and other supporting means. These requirements are intended to minimize the likelihood of occupants being ejected from the vehicle in the event of a crash. The standard applies to passenger cars, MPVs, and trucks, and provides that components on any side door leading directly into a compartment containing one or more seating accommodations must comply with the standard. The full requirements of the standard apply to side doors other than sliding doors and cargo-type doors, to which more abbreviated requirements apply, as discussed below.

Excluded from the standard are folding doors, roll-up doors, doors designed to be easily attached to or removed from vehicles manufactured for operation without doors, and side doors equipped with wheelchair lifts that are linked to either an audible or visible alarm system that is activated when the door is open.
