

party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Texas Eastern to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.

[FR Doc. 95-24207 Filed 9-28-95; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP95-650-001]

Questar Pipeline Company; Notice of Amendment to Application

September 25, 1995.

Take notice that on September 21, 1995, Questar Pipeline Company (Questar Pipeline), 79 South State Street, Salt Lake City, Utah 84111, filed in Docket No. CP95-650-001 and amendment to its application in Docket No. CP95-650-000, pursuant to Section 7(b) of the Natural Gas Act, seeking authority to abandon any certifications that may still surround its Bonanza-Divide Creek gathering facilities located in eastern Utah and western Colorado, all as more fully set forth in the amendment that is on file with the Commission and open to public inspection.

It is stated that Questar Pipeline, on July 31, 1995, in Docket No. CP95-650-000, and Questar Gas Management Company (QGM), on August 2, 1995, in Docket No. CP95-658-000, filed, respectively, an abandonment application and a petition for declaratory order collectively providing for the transfer (spin down) of all of Questar Pipeline's gathering facilities, as well as specific anomalous "certificated gathering" and transmission facilities, to Questar Pipeline's wholly owned, unregulated subsidiary, QGM. Questar

Pipeline explains that among the facilities proposed to be spun down to QGM are certain gathering facilities, located between Bonanza, Utah, and the Divide Creek area of western Colorado, that have been thoroughly described in QGM's Docket No. CP95-658-000 Petition for Declaratory Order.

Questar Pipeline states that since their acquisition, despite the fact that, (1) it has accounted for the facilities as non-jurisdictional gathering and (2) in its view, the gathering facilities have consistently met the Commission's functional tests for qualifying gathering facilities, certain 20 to 30 year-old certifications may still be linked to these facilities. Therefore, it is explained, Questar Pipeline, in its amendment, formally requests authority to abandon all certificate authorizations that may exist in connection with Questar Pipeline's Bonanza-Divide Creek gathering facilities.

Any person desiring to be heard or to make any protest with reference to said amendment to the application should on or before October 5, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Questar Pipeline to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.

[FR Doc. 95-24208 Filed 9-28-95; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER95-1718-000]

Kentucky Utilities Company; Notice of Filing

September 25, 1995.

Take notice that on September 5, 1995, Kentucky Utilities Company tendered for filing copies of an executed Service Agreement for Power Services with Heartland Energy Services, Inc.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before October 6, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-00177; FRL-4980-7]

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the following information collections as described below. The ICRs are: (1) A

proposed ICR entitled "Design for the Environment (DfE) Screen Printing Survey," (2) a proposed ICR entitled "Design for the Environment (DfE) Collection of Impact Data on Technical Information," and (3) a continuing ICR entitled "TSCA Section 12(b) Notification of Chemical Exports," ICR No. 795, OMB No. 2070-0030. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9.

DATES: Written comments must be submitted on or before November 28, 1995.

ADDRESSES: Submit three copies of all written comments to: TSCA Document Receipts (7407), Rm. NE-G99, Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-260-7099. All comments should be identified by the respective administrative record numbers: Comments on the proposed ICR entitled "Design for the Environment (DfE) Screen Printing Survey" should reference administrative record number 145; comments on the proposed ICR entitled "Design for the Environment (DfE) Collection of Impact Data on Technical Information" should reference administrative record number 146; and comments on ICR No. 795, "TSCA Section 12(b) Notification of Chemical Exports," should reference administrative record number 147. These ICRs are available for public review at, and copies may be requested from, the docket address and telephone number listed above.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the appropriate administrative record number and ICR number. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this document may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found in Unit III. of this document.

FOR FURTHER INFORMATION CONTACT: For general information contact: Susan B.

Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-554-1404, TDD: 202-554-0551, e-mail: TSCA-Hotline@epamail.epa.gov.

For technical information contact the following individuals:

For the proposed ICR entitled "Design for the Environment (DfE) Screen Printing Survey," contact Jed Meline, Economics, Exposure and Technology Division (7406), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-260-0695.

For the proposed ICR entitled "Design for the Environment (DfE) Collection of Impact Data on Technical Information," contact Irina Vaysman, Economics, Exposure and Technology Division (7406), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-260-1312.

For ICR No. 795, "TSCA Section 12(b) Notification of Chemical Exports," contact Wanda Woodburn, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-260-3795.

SUPPLEMENTARY INFORMATION: Electronic Availability: Electronic copies of each ICR are available from the EPA Public Access Gopher (gopher.epa.gov) at the Environmental Sub-Set entry for this document under "Rules and Regulations."

I. Background

Entities potentially affected by this action are those: which export or engage in wholesale sales of chemicals; which are engaged in screen printing or other graphics imaging activities; or which are part of industry sectors that may interact with EPA in the Agency's Design for the Environment (DfE) program. For the collections of information addressed in this notice, EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

II. Information Collections

This unit addresses three ICRs, which are identified and discussed separately below.

Title: Design for the Environment (DfE) Screen Printing Survey (proposed collection; ICR number, OMB control number, and expiration date not applicable).

Abstract: EPA's Design for the Environment program, administered by the Office of Pollution Prevention and Toxics, is a voluntary, non-regulatory approach to encourage industry to adopt technologies and use materials that result in lower levels of pollution, lessened reliance on toxic materials, higher energy efficiency and lower environmental health risks. Through DfE, EPA creates partnerships with industry, professional organizations, state and local governments, other federal agencies, and the public to develop and disseminate technical information.

The proposed study will focus on facilities that print graphic arts materials, such as fine art prints, billboard advertisements, posters, and electronic equipment. EPA, the Screen Printing and Graphic Imaging Association International (SGIA, the principal association of the screen printing industry), and the University of Tennessee Center for Clean Products and Clean Technologies have developed technical information for screen printing facilities on the use of screen reclamation processes and other workplace practices that may lower health risks to workers and prevent pollution. The purpose of the study is to evaluate the impact of such DfE technical information on screen printing industry practices, use of materials, and waste generation. The proposed study would involve two telephone surveys of owners or operators of screen printing establishments: an initial survey of a sample of 350 screen printing establishments, and a follow-up survey to be administered about 2 years later. This notice addresses burden estimates only for the initial survey.

Responses to the collection of information are voluntary. EPA and the EPA contractor administering the survey

will observe strict confidentiality precautions, based on the Privacy Act of 1974, which are outlined in detail in the ICR.

Burden Statement: The burden to respondents for complying with this ICR is estimated to total 438 hours at a total cost of \$10,938. These totals are based on an average burden of approximately 1.25 hours per response for 350 respondents, responding once to this survey. There are no recordkeeping requirements associated with this collection. This estimate includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Title: Design for the Environment (DfE) Collection of Impact Data on Technical Information (proposed collection; ICR number, OMB control number, and expiration date not applicable).

Abstract: This is a generic ICR for a series of studies to undertake data collection in support of EPA's DfE program. The concept of the DfE program is detailed above. These studies are referred to as the DfE Technical Information Impact Studies. The studies will focus on various industrial sectors such as printing, printed wiring board circuitry, and dry cleaning. (The ICR entitled "DfE Screen Printing Survey," described above, is a specific example of the type of collection envisioned by this generic ICR.) The purpose of all DfE Technical Information Impact Studies will be to evaluate the impact of DfE technical information on industry practices, use of materials and waste generation. In each case, EPA, often in collaboration with industry associations and universities, will have developed technical information for industry on the use of product reclamation processes and other workplace practices that may lower health risks to workers and prevent pollution. The proposed studies would each involve two separate surveys of owners or operators of target industry establishments. The initial survey would establish a baseline representing pre-technical information receipt. A follow-up survey will be administered approximately 2 years later to establish longer-term impacts of

the technical materials. The overall goal of this before-and-after design is to understand the impacts of DfE technical information on workplace practices and technologies that generate or prevent pollution. This generic ICR will allow EPA to conduct a series of small conceptually interrelated surveys. It will permit the DfE program the ability to collect information in a timely manner and to evaluate the effectiveness of the technical materials EPA provides to industry. EPA will be the principal user of information developed from the survey findings, but EPA expects that tens of thousands of small businesses in a variety of industry sectors will benefit from the results of the studies.

Responses to the collection of information are voluntary. EPA and any EPA contractor administering the surveys will observe strict confidentiality precautions, based on the Privacy Act of 1974, which are outlined in detail in the ICR.

Burden Statement: Because it is not known how many surveys will be conducted, it is not possible to estimate the total burden or cost of the information collection. However, EPA expects that there will be an average burden of approximately 1.25 hours per response, and that the number of respondents will be in the range of 300 to 500 for each survey, with each respondent responding once to a given survey. There are no recordkeeping requirements associated with these surveys. These estimates include the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Title: Notification of Chemical Exports, ICR No. 795, OMB No. 2070-0030, expires February 28, 1996.

Abstract: Section 12(b)(2) of the Toxic Substances Control Act (TSCA) requires that any person who exports or intends to export to a foreign country a chemical substance or mixture that is regulated under TSCA sections 4, 5, 6 and/or 7 submit to EPA notification of such export or intent to export. Upon receipt of notification, EPA will advise the government of the importing country of the U.S. regulatory action with respect to that substance. EPA uses the

information obtained from the submitter via this collection to advise the government of the importing country.

Responses to the collection of information are mandatory (see 40 CFR part 707). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2. However, notwithstanding any claims of confidentiality, the government of the importing country will be notified of the export of the substances in question.

Burden Statement: The burden to respondents for complying with this ICR is estimated to total 3,800 hours per year, with an annual cost of \$111,856. These totals are based on an average burden of approximately 0.5 hours per response for an estimated 200 annual respondents, reporting generally once annually per each country to which the respondent exports chemicals. There are no recordkeeping requirements associated with this collection. This estimate includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

III. Public Docket

A record has been established for this action under docket number "OPPTS-00177" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from noon to 4 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center, Rm. NE-B607, 401 M St., SW., Washington, DC 20460.

Electronic comments can be sent directly to EPA at:
ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this action, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

List of Subjects

Environmental protection and Information collection requests.

Dated: September 22, 1995.

Lynn R. Goldman,

Assistant Administrator for Prevention, Pesticides and Toxic Substances.

BILLING CODE 6560-50-F

[OPPTS-00176; FRL-4980-8]

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the following information collections as described below. The ICRs are: (1) "Health and Safety Data Reporting Rule," ICR No. 575, OMB No. 2070-0004; (2) "Recordkeeping and Reporting Requirements for Allegations of Significant Adverse Reaction to Human Health or the Environment," ICR No. 1031, OMB No. 2070-0017; and (3) "Significant New Use Rules for Existing Chemicals," ICR No. 1188, OMB No. 2070-0038. These are not the final draft ICRs. In the absence of final drafts of the ICRs as of the date of publication of this notice, EPA is extending the required 60-day public notice and comment period, which ordinarily would commence with the date of publication of this notice, until December 15, 1995. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for

EPA's regulations are listed in 40 CFR part 9.

DATES: Written comments must be submitted on or before December 15, 1995.

ADDRESSES: Submit three copies of all written comments to: TSCA Document Receipts (7407), Rm. NE-G99, Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone 202-260-7099. All comments should be identified by the respective administrative record numbers: Comments on ICR No. 575, "Health and Safety Data Reporting Rule," should reference administrative record number 148; comments on ICR No. 1031, "Recordkeeping and Reporting Requirements for Allegations of Significant Adverse Reaction to Human Health or the Environment," should reference administrative record number 149; and comments on ICR No. 1188, "Significant New Use Rules for Existing Chemicals," should reference administrative record number 150.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the appropriate administrative record number and ICR Number. No CBI should be submitted through e-mail. Electronic comments on this action may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found in Unit III. of this document.

Draft copies of the ICRs addressed by this notice are available for review at, and copies may be obtained through, the public docket address and telephone number noted above.

FOR FURTHER INFORMATION CONTACT: For general information contact: Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-554-1404, TDD: 202-554-0551, e-mail: TSCA-Hotline@epamail.epa.gov. For technical information contact: Frank Kover, Chemical Control Division (7405), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 202-260-8130.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of each ICR are available from the EPA Public Access Gopher (gopher.epa.gov) at the Environmental Sub-Set entry for this document under "Rules and Regulations."

I. Background

Entities potentially affected by this action are those that manufacture, process, import, or distribute in commerce chemical substances or mixtures.

For each of the collections of information described in Unit II. of this preamble, EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

II. Information Collections

This unit addresses three ICRs, which are identified and discussed separately below.

Title: Health and Safety Data Reporting Rule, ICR No. 575, OMB No. 2070-0004.

Abstract: Section 8(d) of the Toxic Substances Control Act (TSCA) and 40 CFR part 716 require manufacturers and processors of chemicals to submit lists and copies of health and safety studies relating to the health and/or environmental effects of certain chemical substances and mixtures. In order to comply with the reporting requirements of section 8(d), respondents must search their records to identify any health and safety studies in their possession, copy and process relevant studies, list studies that are currently in progress, and submit this information to EPA.

EPA uses this information to construct a complete picture of the known effects of the chemicals in question, leading to determinations by EPA of whether additional testing of the
