[Docket No. 950206041-5041-01; I.D. 091995B]

Groundfish of the Gulf of Alaska; Pollock in Statistical Area 62 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 62 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the fourth quarterly allowance of total allowable catch (TAC) for pollock in this area.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), October 4, 1995, until 12 midnight, A.l.t., December 31, 1995.

FOR FURTHER INFORMATION CONTACT: Thomas Pearson, 907-486-6919.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the GOA exclusive economic zone is managed by NMFS according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North

Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

The 1995 pollock TAC in Statistical Area 62 was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8470, February 14, 1995) as 15,310 metric tons (mt), determined in accordance with § 672.20(a)(2)(iv). As of September 2, 1995, the remaining pollock TAC for Statistical Area 62 is 3,124 mt. The fourth quarterly allowance of the TAC for Statistical Area 62 will become available at 12 noon, A.l.t., October 1, 1995, pursuant to § 672.20(a)(2)(iv).

The Director, Alaska Region, NMFS (Regional Director), has determined, in accordance with § 672.20(c)(2)(ii), that the 1995 fourth quarterly allowance of pollock TAC in Statistical Area 62 soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 2,742 mt after determining that 382 mt will be taken as incidental catch in directed fishing for other species in Statistical Area 62 of the GOA. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 62, effective from 12 noon, A.l.t., October 4, 1995, until 12 midnight, A.l.t., December 31, 1995.

After the effective date of this closure, the maximum retainable bycatch amounts at § 672.20(g) apply at any time during a fishing trip.

Classification

This action is taken under 672.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Groundfish of the Gulf of Alaska; Shortraker/Rougheye Rockfish Species Group in the Central Regulatory Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting retention of the shortraker/ rougheye rockfish species group in the Central Regulatory Area of the Gulf of Alaska (GOA). NMFS is requiring that catches of the shortraker/rougheye rockfish species group in this area be treated in the same manner as prohibited species and discarded at sea with a minimum of injury. This action is necessary because the total allowable catch (TAC) specified for the shortraker/rougheye rockfish species group in the Central Regulatory Area of the GOA has been reached.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), October 1, 1995, until 12 midnight, A.l.t., December 31, 1995.
