Constitution Avenue NW., Washington, DC 20230; telephone: (202)482–2786.

### SUPPLEMENTARY INFORMATION:

### Background

On August 1, 1995, the Department published in the Federal Register (60 FR 39151) its intent to revoke the countervailing duty order on wire rod from Zimbabwe (51 FR 29292; August 15, 1986). Additionally, as required by 19 CFR 355.25(d)(4)(ii)(1994), the Department served, by certified mail, written notice of its intent to revoke this countervailing duty order on each party listed on its most current service list.

Prior to publication of the Department's notice of intent to revoke the order, this countervailing duty order was determined to be subject to section 753 of the Tariff Act of 1930 (as amended by the Uruguay Round Agreements Act of 1994)(the Act). Countervailing Duty Order; Opportunity to Request a Section 753 Injury Investigation, 60 FR 27,963 (May 26, 1995). In conjunction with that determination, domestic interested parties were notified of their right to request an injury investigation under section 753(a) of the Act from the U.S. International Trade Commission (the Commission). Those parties were further informed that, in accordance with sections 753(b)(3) and (4) of the Act, the order would be revoked effective March 3, 1995 unless a request for an injury investigation was submitted to the Commission within six months of the date on which Zimbabwe became a signatory to the World Trade Organization (March 3, 1995), and the Commission rendered an affirmative injury determination pursuant to section 753(a)(1) of the Act.

On September 18, 1995, the Commission notified the Department that it did not receive a timely request under section 753(a) and, therefore, a negative injury determination had been made with respect to this order pursuant to section 753(b)(4) of the Act. However, since the revocation is effective January 1, 1995 under 19 CFR 355.25(d)(4)(iii), no further action is required by the Department under section 753 of the Act.

### Scope of the Order

Imports covered by this order are shipments from Zimbabwe of carbon steel wire rod including coiled, semifinished, hot-rolled carbon steel product of approximately round solid cross-section, not under 0.20 inch in diameter, nor over 0.74 inch in diameter, tempered or not tempered, treated or not treated, not manufactured

or partly manufactured, and valued over or under four cents per pound. Such merchandise is currently classified under item numbers 7213.20.00, 7213.31.30, 7213.41.30, 7213.41.60, 7213.49.00, and 7123.50.00 of the Harmonized Tariff Schedule (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

### Determination to Revoke

The Department may revoke a countervailing duty order if it concludes that the order is no longer of interest to interested parties. We conclude that there is no interest in a countervailing duty order when no interested party (as defined in sections 355.2 (i)(3), (i)(4), (i)(5), and (i)(6) of the Department's regulations) has requested an administrative review for at least five consecutive review periods and when no domestic interested party objects to the revocation (19 CFR 355.25(d)(4)(iii)).

We received no requests for administrative review for the previous five consecutive review periods and no objections to our notice of intent to revoke the countervailing duty order. Therefore, we have concluded that the countervailing duty order covering wire rod from Zimbabwe is no longer of interest to interested parties, and we are revoking this countervailing duty order in accordance with 19 CFR 355.25(d)(4)(iii).

Further, as required by 19 CFR 355.25(d)(5), the Department is terminating the suspension of liquidation on the subject merchandise as of the effective date of this notice, and will instruct the Customs Service to liquidate, without regard to countervailing duties, all unliquidated entries of this merchandise exported from Zimbabwe on or after January 1, 1995.

Because of our determination to revoke this order in accordance with 19 CFR 355.25(d)(4)(iii), it is unnecessary to revoke the order pursuant to section 753(b)(3)(B) of the Act.

Dated September 21, 1995.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897; 15 CFR part 301), we invite comments on the

question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 95-078. Applicant: University of California, Davis, Exercise Science Department, 264 Hickey Gym, Davis, CA 95616. Instrument: Nitrogen Analyzer, Model N2–TEST. Manufacturer: Erich Jaeger, Germany. Intended Use: The instrument will be used to measure nitrogen concentration in rebreathed air containing 100% oxygen in order to determine residual lung volume to provide a more accurate assessment of the percentage of body fat in humans by subtracting from weight loss in underwater weighing. Application Accepted by Commissioner of Customs: August 29, 1995.

Docket Number: 95-081. Applicant: University of Rhode Island, Graduate School of Oceanography, South Ferry Road, Narragansett, RI 02882–1997. Instrument: ICP Mass Spectrometer, Model Element. Manufacturer: Finnigan MAT, Germany. Intended Use: The instrument will be used for studies of oceanographic, geological and atmospheric samples that will be analyzed for a wide range of elemental and isotopic abundances. In addition, the instrument will be used in a graduate level course in Marine Isotope Geochemistry to expose students to the fundamentals of isotopic tracers used in chemical oceanography. Application Accepted by Commissioner of Customs:

Docket Number: 95–082. Applicant: University of Maryland at College Park, Institute for Plasma Research, 1202K Energy Research Facility, College Park, MD 20742. Instrument: Pulsed Surface Plasma Source and Power Supply. Manufacturer: Budker Institute of Nuclear Physics, CIS. Intended Use: The instrument will be used to produce very high quality ion beams required to advance the present state-of-the art of ion project lithography. Application Accepted by Commissioner of Customs: August 30, 1995.

August 30, 1995.

Docket Number: 95–083. Applicant: Continuous Electron Beam Accelerator Facility, 12000 Jefferson Avenue, Newport News, VA 23606. Instrument: Gas Cherenkov Counters for Hall A Magnetic Spectrometers. *Manufacturer:* CEA/DSM, France. *Intended Use:* The instrument will be used for studies of nucleons, nuclei, pions and Kaons and nucleon excited states. In addition, the instrument will be used for educational purposes in a graduate course in experimental nuclear physics. *Application Accepted by Commissioner of Customs:* September 7, 1995.

Docket Number: 95–084. Applicant: Federal Highway Administration, Special Projects & Engineering Division, HNR–20, 6300 Georgetown Pike, McLean, VA 22101. Instrument: Automatic Non-Contact Aggregate Graduation Device, Model VDG 40. Manufacturer: Yernaux Pesage, France. Intended Use: The instrument will be used to evaluate mineral aggregate materials used in pavement construction. Application Accepted by Commissioner of Customs: September 11, 1995.

Docket Number: 95–085. Applicant: University of Wisconsin - Eau Claire, Eau Claire, WI 54702. Instrument: Absorbance and Fluorescence Stopped-Flow Spectrophotometer, Model SX-17MV. Manufacturer: Applied Photophysics, Ltd., United Kingdom. Intended Use: The instrument will be used to study the rates of electron transfer reactions of organic, inorganic, biological, and organometallic molecules to determine how differences in the structural, physical, and chemical properties of the reacting materials control their rates of reaction. Application Accepted by Commissioner of Customs: September 11, 1995.

### National Oceanic and Atmospheric Administration

[I.D. 092295B]

## Marine Mammals and Endangered Species

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of application for a scientific research permit (P278F).

SUMMARY: Notice is hereby given that Dr. Brent Stewart, Senior Research Biologist, Hubbs-Sea World Research Institute, 2595 Ingraham St., San Diego, CA 92109 has applied in due form for

a permit to take two species of marine mammals for purposes of scientific research.

**DATES:** Written comments must be received on or before October 30, 1995.

**ADDRESSES:** The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713–2289); and

Director, Southwest Region, NMFS, NOAA, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802–4213 (301/980–4016).

Written data or views, or requests for a public hearing on this request, should be submitted to the Director, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

**FOR FURTHER INFORMATION CONTACT:** Gary Barone, Permits Division, 301/713–2289.

**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

The permit application requests authorization to capture and release 20 common dolphins (*Delphinus delphis*) and 20 Pacific white-sided dolphins (*Lagenorhynchus obliquidens*) over a 5-year period. The animals will be fitted with satellite linked transmitters, biologically sampled and scanned with an ultrasound device. The work will be conducted in the waters off of Southern California.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: September 22, 1995.

Ann D. Terbush,

Chief, Permits and Documentation Division, Office of Protected Resources, National Marine Fisheries Service.

### **Marine Mammals**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of public display permit no. 978.

**SUMMARY:** Notice is hereby given that the Oregon Coast Aquarium (P145A) has been issued a permit for public display purposes.

**ADDRESSES:** The permit is available for review by appointment in the following offices:

Permits Division, Office of Protected Resources, NMFS, NOAA, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713–2289); and

Director, Northwest Region, NMFS, 7600 Sand Point Way, NE, BIN C15700, Seattle, WA 98115 (206/526–6150).

SUPPLEMENTARY INFORMATION: On Monday, August 14, 1995, notice was published in the Federal Register (60 FR 41881) that an application had been filed by the Oregon Coast Aquarium, Newport, OR. A public display permit was requested to import one adult male killer whale (*Orcinus orca*), from the Reino Aventura theme park, Mexico, into the United States for public display purposes.

The requested permit has been issued subject to the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), and the conditions set forth therein.

Dated: September 22, 1995.
Ann D. Terbush,
Chief, Permits & Documentation Division,
Office of Protected Resources, National
Marine Fisheries Service.

# COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Recision of a Request to Consult and Cancellation of a Limit on Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Honduras

September 27, 1995.

**AGENCY:** Committee for the Implementation of Textile Agreements (CITA).

**ACTION:** Announcing the recision of a request to consult and issuing a directive to the Commissioner of Customs cancelling a limit.

**EFFECTIVE DATE:** September 29, 1995. **FOR FURTHER INFORMATION CONTACT:** Jennifer Aldrich, International Trade
