

Principles were developed by the Federal Facilities Environmental Restoration Dialogue Committee (FFERDC), a federally chartered advisory committee. The FFERDC includes members from: national, regional, and locally based environmental, community, environmental justice, and labor organizations; state, tribal, and local governments; the U.S. Departments of Energy, Defense, Agriculture, and Interior; the Environmental Protection Agency, the National Oceanic and Atmospheric Administration, and the Agency for Toxic Substances and Disease Registry.

The Principles are policy recommendations aimed at improving the process by which Federal facility environmental cleanup decisions are made, such that these decisions reflect the priorities and concerns of all stakeholders. The fourteen Principles cover the following subjects:

1. Nature of the Obligation
2. Sustained Commitment to Environmental Cleanup
3. Environmental Justice
4. Consistency of Treatment between Federal Facilities and Private Sites
5. Cleanup Contracting
6. Fiscal Management
7. Interdependent Decision-Making Roles and Responsibilities
8. The Role of Negotiated Cleanup Agreements
9. Consideration of Human Health Risk and Other Factors in Federal Facility Environmental Cleanup Decision Making
10. The Importance of Pollution Prevention and Pollution Control Activities
11. The Role of Future Land Use Determinations in Making Cleanup Decisions
12. The Role of Studies in the Cleanup Process
13. The Need for a Systematic Approach to Decision Making and Priority Setting
14. Stakeholder Involvement

Notice of Final Decision To Grant BP Chemicals, Inc. a Modification of an Exemption From the Land Disposal Restrictions of the Hazardous and Solid Waste Amendments of 1984 Regarding Injection of Hazardous Wastes

AGENCY: United States Environmental Protection Agency.

ACTION: Notice of Final Decision on a Request by BP Chemicals, Inc., of Cleveland, Ohio, to Modify an Exemption from the Hazardous and Solid Waste Amendments of the Resource Conservation and Recovery Act.

SUMMARY: Notice is hereby given by the United States Environmental Protection Agency (USEPA or Agency) that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act (RCRA) has been granted to BP Chemicals, Inc. (BPCI) of Cleveland, Ohio. As required by 40 CFR Part 148, BPCI has demonstrated, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the injection zone utilized by BPCI's facility located at Lima, Ohio, for as long as the waste remains hazardous. This modification allows BPCI to inject additional RCRA-regulated hazardous wastes, identified by codes: P030, P069, P101, P120, U007, U056, U149, U191, U219, and D035 through four waste disposal wells (WDWs) at the facility at Lima, Ohio. This decision constitutes a final Agency action for which there is no administrative appeal.

BACKGROUND: On May 7, 1992, based on information submitted, the U.S. EPA granted BPCI an exemption from the land disposal restrictions of the 1984 Hazardous and Solid Waste Amendments. On July 10, 1994, BPCI requested guidance in adding additional waste streams which might be considered RCRA regulated wastes. On January 30, 1995, BPCI submitted a petition to modify the exemption to include wastes bearing ten additional wastes codes.

After careful review of the material submitted, the U.S. EPA has determined, as required by 40 CFR

148.20(f), that there is a reasonable degree of certainty that waste streams containing constituents designated by these codes will behave hydraulically and chemically similarly to wastes for which BPCI was granted an exemption, and will not migrate from the injection zone within 10,000 years. The injection zone is the Middle Run and Mt. Simon Sandstones and the Eau Claire Formation. The confining zone is comprised of that part of the Knox Dolomite between 2,100 and 2,430 feet in depth. A fact sheet containing a summary of the original decision now being modified was published in the Federal Register on March 12, 1992, at 57 FR 8753 et seq. The fact sheet for this modification was published in the Federal Register on July 24, 1995, at 60 FR 37892 et seq.

A public notice of the proposed decision was issued on July 28, 1995, and a public meeting was held in Lima, Ohio, on August 29, 1995. The public comment period expired on September 21, 1995. A number of comments were received and all comments have been considered in reaching this final decision. A responsiveness summary has been mailed to all commenters and included as part of the Administrative Record relating to this decision.

As a result of this action and the May 7, 1992, exemption, BPCI may inject wastes bearing the following codes:

Ignitability	D001
Corrosivity	D002
Cyanides	D003
Arsenic	D004
Barium	D005
Cadmium	D006
Total chromium	D007
Lead	D008
Mercury	D009
Selenium	D010
Silver	D011
Multi-source leachate	F039
Bottom stream from the wastewater stripper in the production of acrylonitrile.	K011
Bottom stream from the acetonitrile column in the production of acrylonitrile.	K013
Acetonitrile purification column. Bottom stream from the acetonitrile purification column in the production of acrylonitrile.	K014
Acrolein	P003
Allyl alcohol	P005
Cyanide salts	P030
Hydrogen cyanide	P063
Acetone cyanohydrin	P069
Potassium cyanide	P098
Propionitrile	P101
Sodium cyanide	P106
Vanadium pentoxide	P120
Acetaldehyde	U001
Acetone	U002
Acetonitrile	U003
Acrylamide	U007

Acrylic acid	U008
Acrylonitrile	U009
Benzene	U019
Chloroform	U044
Crotonaldehyde	U053
Cyclohexane	U056
Cyclohexanone	U057
Methylene chloride	U080
Formaldehyde	U122
Formic acid	U123
Furan	U124
Furfural	U125
Lindane	U129
Isobutyl alcohol	U140
Maleic anhydride	U147
Malononitrile	U149
Mercury	U151
Methacrylonitrile	U152
Methanol	U154
Methyl ethyl ketone	U159
Methyl isobutyl ketone	U161
Nitrobenzene	U169
Phenol	U188
2-Methyl pyridine	U191
Pyridine	U196
Carbon tetrachloride	U211
Tetrahydrofuran	U213
Thiourea	U219
Toluene	U220
Xylene	U239

BPCI may continue to inject wastes containing methyl ethyl ketone designated as D035 as well as wastes containing benzene, carbon tetrachloride, and pyridine bearing the waste codes D018, D019, and D038, respectively, which were considered in the original demonstration of no migration, after those codes are banned from land disposal if the demonstrations of no migration for those codes meet the standards promulgated in the final applicable land ban rule.

CONDITIONS: General conditions of this exemption are found at 40 CFR Part 148. The exemption granted to BPCI on May 7, 1992 included a number of conditions. The conditions numbered (1), (2), (3), (5), and (6) remain in force. The condition numbered (4) has been satisfied.

DATES: This action is effective as of September 22, 1995.

FOR FURTHER INFORMATION CONTACT: Harlan Gerrish, Lead Petition Reviewer, U.S. EPA, Region 5, telephone (312) 886-2939. Copies of the petition and all pertinent information relating thereto are on file and are part of the Administrative Record. It is recommended that you contact the lead reviewer prior to reviewing the Administrative Record.

Edward P. Watters,
Acting Director, Water Division.

Common Sense Initiative Council, Iron and Steel Sector Subcommittee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of open meeting of the Public Advisory Common Sense Initiative Council, Iron and Steel Sector Subcommittee.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is given that the Iron and Steel Sector Subcommittee of the Common Sense Initiative Council will meet on October 26, 1995 in Washington, D.C. The Subcommittee is currently overseeing approved projects and exploring issues related to the iron and steel industry. Limited time will be provided for members of the public to make oral comments at the meeting.

OPEN MEETING NOTICE: Notice is hereby given that the Environmental Protection Agency is convening an open meeting of the Iron and Steel Sector Subcommittee on Thursday, October 26, 1995. The meeting will begin at 8:00 a.m. EST and run until 4:00 p.m. EST and will be held at the Georgetown University Conference Center, 3800 Reservoir Road, Washington, D.C. 20057, telephone number 202-687-3200. Seating will be available on a first come, first served basis. Limited time will be provided for public comment.

The Iron and Steel Subcommittee has created four work groups which are responsible for proposing to the full Subcommittee for its review and approval potential activities or projects that the Iron and Steel Sector Subcommittee will undertake, and for carrying out projects once approved. The Subcommittee has approved seven projects and their work plans. The purpose of this meeting is to discuss in detail the status of projects sponsored by the Compliance and the Innovative Technology work groups, to hear brief status updates from the Permits and Brownfields work groups, and to discuss the role of public participation in environmental decision making.

INSPECTION OF SUBCOMMITTEE

DOCUMENTS: Documents relating to the above topics will be publicly available at the meeting. Thereafter, these documents and the minutes of the meeting will be available for public inspection in room 2417M of EPA Headquarters, 401 M Street, SW., Washington, DC 20460, telephone number 202-260-7417. Common Sense Initiative information can be accessed electronically through contacting

Katherine Brown at:
brown.katherine@epamail.gov.

FOR FURTHER INFORMATION: For more information about this meeting, please call either Ms. Mary Byrne at 312-353-2315 in Chicago, Illinois or Ms. Judith Hecht at 202-260-5682 in Washington, DC.

Dated: September 18, 1995.

Mahesh Podar,

Designated Federal Officer.

Public Meeting of the Sanitary Sewer Overflows Dialogue

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) is convening a public meeting of the Sanitary Sewer Overflows (SSOs) dialogue on October 12 and 13, 1995. The meeting has several purposes: (1) To discuss goals, objectives and desired outcomes for the SSO policy dialogue, such as ensuring national consistency and adequate municipal investment in collection system operation and maintenance; (2) to discuss collection system operation and maintenance incentives and strategy; (3) to discuss permit and compliance priorities; and (4) to discuss the overall SSO flowchart and components of the flowchart prepared in draft to describe how a community should respond to different types of SSOs. The meeting is open to the public without need for advance registration.

DATES: The SSO Dialogue will be held on October 12 and 13, 1995. On the 12th, the meeting will begin at approximately 8:30 a.m. EST and run until about 5 p.m. On the 13th, the meeting will run from about 8:30 a.m. until completion.

ADDRESSES: EPA plans to hold the SSO Dialogue at the conference room of Resolve, the Center for Environmental Dispute Resolution. The address for Resolve is 2828 Pennsylvania Ave. NW, Suite 402, Washington DC 20007. The telephone number is (202) 944-2300. However, the Agency's current contract situation may result in the meeting being held at the alternative site of the Water Environment Federation, 601 Wythe Street, Alexandria, VA 22314. The Water Environment Federation telephone number is 703 684-2400.
