

could acquire housing. Section 235 also authorized the Secretary to assist the mortgagor by contracting with the mortgagee to make a portion of the mortgage payments on behalf of the mortgagor. Many of the mortgages insured under section 235, which are still outstanding, were made during the high interest rate years of 1980, 1981, and 1982. HUD would be able to save substantial amounts of assistance payments if the mortgages were refinanced at current lower interest rates. Congress enacted section 235(r) of the Act in 1988, so that mortgages insured and assisted under section 235 of the National Housing Act could be refinanced at a reduced interest rate.

Assistant Secretary for Housing—Federal Housing Commissioner.

Notice of Submission of Proposed Information Collection to OMB

Proposal: Revision to the Section 235(r)

Refinancing Procedures (FR-3927)

Office: Office of Insured Single Family

Description of the need for the information and its proposed use:

The information is collected by the originating lender from the mortgage application and is used by the

originating lender to process the applications for Section 235(r) mortgage insurance and assistance. The applications are underwritten certified by the originating lender.

The information is needed for the evaluation of the applications, the Department's financial management and accounting system(s) and the Department's monitoring of the origination and servicing activities of the lender.

If the information is not collected the originating lender cannot make the proper underwriting decision and the Department's data base would be incomplete for its financial management and accounting system(s). Furthermore, the Department's efforts to monitor the origination and servicing activities of the lender would be debilitated.

Form Numbers: HUD-92900 and HUD-93114

Respondents: Approximately 23,000 (each potential mortgage refinance transaction is an equivalent respondent)

Frequency of Submission: One time only

Reporting Burden:

23,000 respondents is the maximum (estimated) universe. Each potential mortgage refinance transaction is an equivalent respondent; wherein, each refinance will use a different variation of the above forms in the transaction. For example, all respondents will have a payoff statement while a smaller number of respondents will have their recapture mortgage subordinated. All numbers are rounded up to the next whole number.

Total estimated burden hours: 6,437

Status: Reinstatement, with changes of a previously approved collection for which approval has expired.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Environmental Document Prepared for a Three-Dimensional (3D) Seismic Survey on the Pacific Outer Continental Shelf (OCS)

AGENCY: Minerals Management Service (MMS), U.S. Department of the Interior.

ACTION: Notice of the availability of an environmental document prepared for the 3-D Seismic Survey on the Pacific OCS.

SUMMARY: The MMS, in accordance with Federal Regulations (40 CFR 1501.4 and 1506.6) that implement the National Environmental Policy Act (NEPA), announces the availability of a NEPA-related Environmental Assessment (EA) and Finding of No Significant Impact (FONSI), prepared by the MMS for a proposed 3-D seismic survey to take place offshore Santa Barbara County, California in the Santa Ynez Unit.

Parties

Exxon Company, U.S.A.

| Activity | Location | Date |
|---------------------|---|----------------------|
| 3-D Seismic Survey. | Santa Barbara Channel, Santa Ynez Unit. | 10/95 through 12/95. |

Persons interested in reviewing the environmental document for the proposal listed above or obtaining information about EA's and FONSI's prepared for activities on the Pacific OCS are encouraged to contact the MMS office in the Pacific OCS Region.

FOR FURTHER INFORMATION CONTACT:

Regional Supervisor, Office of Environmental Evaluation, Pacific OCS Region, Minerals Management Service, 770 Paseo Camarillo, Mail Stop 7300, Camarillo, California, 93010, Telephone (805) 389-7801.

SUPPLEMENTARY INFORMATION: The MMS prepares EA's and FONSI's for proposals that relate to research and development of mineral resources on the Pacific OCS. The EA's examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects. The EA is used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA 102(2)(C). A FONSI is prepared in those instances where the MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the EA.

This Notice constitutes the public Notice of Availability of environmental documents required under the NEPA regulations.

Dated: September 25, 1995.

J. Lisle Reed,

Regional Director, Pacific OCS Region.
