

current benefits during the review period. Moreover, export sales should form the denominator because receipt of pioneer status tax benefits for the companies under review is contingent upon exportation. Accordingly, we have not overstated the benefit from the Pioneer Status Program. See section 355.47(a)(2) of the *Proposed Rules*. See also *Final Affirmative Countervailing Duty Determination; Oil Country Tubular Goods From Brazil* (49 FR 46570; November 27, 1984) and *Final Affirmative Countervailing Duty Determination; Certain Agricultural Tillage Tools From Brazil* (50 FR 34525; August 26, 1985).

Final Results of Review

For the period January 1, 1993 through December 31, 1993, we determine the net subsidy to be 1.00 percent *ad valorem* for all companies.

The Department will instruct the U.S. Customs Service to assess a countervailing duty rate of 1.00 percent.

This countervailing duty order was determined to be subject to section 753 of the Act (as amended by the Uruguay Round Agreements Act of 1994). *Countervailing Duty Order; Opportunity to Request a Section 753 Injury Investigation*, 60 FR 27,963 (May 26, 1995), amended 60 FR 32,942 (June 26, 1995). In accordance with section 753(a), domestic interested parties have requested an injury investigation with respect to this order with the International Trade Commission (ITC). Pursuant to section 753(a)(4), liquidation of entries of subject merchandise made on or after January 1, 1995, the date Malaysia joined the World Trade Organization, is suspended until the ITC issues a final injury determination. We will not issue assessment instructions for any entries made after January 1, 1995; however, we will instruct Customs to collect cash deposits in accordance with the final results of this administrative review.

Therefore, the Department will instruct the U.S. Customs Service to collect a cash deposit of estimated countervailing duties of 1.00 percent of the f.o.b. invoice price on all shipments of the subject merchandise from Malaysia entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 355.43(d). Timely written notification of return/destruction of

APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 355.22.

Mid-Atlantic Fishery Management Council; Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, F/NWO3, NMFS, 525 NE Oregon Street, Portland, OR 97232-4169 (503-230-5400).

SUPPLEMENTARY INFORMATION:

Modification 5 to permit 747 and modification 3 to permit 823 were issued under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Notice was published on April 27, 1995 (60 FR 20673) that an application had been filed by USFWS, located in Red Bluff, CA, for modification 5 to permit 747. Permit 747 authorizes a take of adult and juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) associated with a number of scientific research and enhancement projects. For modification 5, USFWS is authorized an increase in the annual take of listed juvenile salmon associated with the research activities of Study 1, a census of juvenile salmon downstream migration. USFWS needs the increased take to expand the understanding of juvenile salmonid rearing and outmigration and to assist with the evaluation of juvenile salmonid abundance and outmigration timing in the vicinity of the Red Bluff Research Pumping Facility. An increased number of listed fish will be captured and handled, resulting in a corresponding increase in the potential number of indirect mortalities. USFWS is also authorized to collect non-lethal fin-clips from a number of the listed fish authorized to be handled for Study 1 and to analyze the collected tissue samples for genetic attributes. Modification 5 to Permit 747 was issued to USFWS on September 14, 1995. The modification will be in effect for the duration of the permit. Permit 747 expires on December 31, 1995.

Modification 3 to Permit 823 was issued to IDFG on September 22, 1995. Permit 823 authorizes a take of adult and juvenile, listed, naturally-produced and artificially-propagated, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*), adult and juvenile, listed, Snake River fall chinook salmon (*Oncorhynchus tshawytscha*), and adult and juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus nerka*) associated with a wide range of scientific research activities in Idaho. For Modification 3, IDFG is authorized an increase in the annual lethal take of listed juvenile

sockeye salmon associated with a new task, the monitoring research of Pettit Lake. In July 1995, IDFG released 8,400 listed juvenile sockeye salmon from their captive broodstock program into Pettit Lake, as authorized by Modification 6 to Permit 795 (60 FR 37052). The Pettit Lake *O. nerka* population structure must be monitored to build trend data over time, essential for the development of future release plans. The research will contribute to the understanding of population make-up (genetic origin), growth, diet, and population age structure in the lake. Modification 3 is valid for the duration of the permit. Permit 823 expires on November 30, 1997.

Issuance of these permit modifications, as required by the ESA, was based on a finding that such actions: (1) Were applied for in good faith, (2) will not operate to the disadvantage of the listed species that are the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA and the NMFS regulations governing listed species permits.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits and Guaranteed Access Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products Produced or Manufactured in the Dominican Republic

September 28, 1995.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting import limits and guaranteed access levels.

EFFECTIVE DATE: October 4, 1995.

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-5850. For information on

embargoes and quota re-openings, call (202) 482-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

On the request of the Government of the Dominican Republic, the U.S. Government agreed to increase the 1995 Guaranteed Access Levels for Categories 338/638, 339/639, 444 and 633. Also, the current limit for Categories 351/651 is increased for swing, reducing the limit for Categories 342/642 to account for the increase.

A description of the textile and apparel categories in terms of HTS numbers is available in the

CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see Federal Register notice 59 FR 65531, published on December 20, 1994). Also see 60 FR 17321, published on April 5, 1995.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing, but are designed to assist only in the implementation of certain of their provisions.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 28, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on March 30, 1995, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Dominican Republic and exported during the twelve-month period which began on January 1, 1995 and extends through December 31, 1995.

Effective on October 4, 1995, you are directed to adjust the limits for the following categories, as provided for under the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit ¹
342/642	287,231 dozen.
351/651	937,201 dozen.

¹ The limits have not been adjusted to account for any imports exported after December 31, 1994.
