

regulations promulgated thereunder at 40 CFR Part 271, owners and operators of hazardous waste treatment, storage, or disposal facilities (TSDFs) may take advantage of the flexibility that an approved state may exercise. Such flexibility will reduce, not increase, compliance costs for the private sector. Thus, today's rule is not subject to the requirements of sections 202 and 205 of the UMRA.

EPA has determined that this rule contains no regulatory requirements that might significantly or uniquely affect small governments. The Agency recognizes that small governments may own and/or operate TSDFs that will become subject to the requirements of an approved state hazardous waste program. However, such small governments which own and/or operate TSDFs are already subject to the requirements in 40 CFR Parts 264, 265 and 270. Once EPA authorizes a state to administer its own hazardous waste program and any revisions to that program, these same small governments will be able to own and operate their TSDFs with increased levels of flexibility provided under the approved State program.

Certification under the Regulatory Flexibility Act: Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Wyoming's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

#### National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List Update

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of deletion of the Stewco, Incorporated Superfund Site (Site) from the National Priorities List.

**SUMMARY:** The Environmental Protection Agency (EPA) announces the deletion of the Site in Waskom, Texas, from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR Part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA). EPA and the State of Texas have determined that all appropriate Fund-financed responses under CERCLA have been implemented and that no further cleanup by responsible parties is appropriate. Moreover, EPA and the State of Texas have determined that remedial actions conducted at the Site to date have been protective of public health, welfare, and the environment.

**EFFECTIVE DATE:** October 4, 1995.

**FOR FURTHER INFORMATION CONTACT:** Ernest R. Franke, Remedial Project Manager, US EPA, Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 665-8521.

**SUPPLEMENTARY INFORMATION:** The Site to be deleted from the NPL is the "STEWCO Superfund Site," Waskom, Texas. A Notice of Intent to Delete for this Site was published on July 27, 1995, (60 FR 422). The closing date for public comment was August 25, 1995. EPA received no comments during the comment period.

EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as a list of the most serious of those sites. Sites on the NPL may be the subject of remedial response actions financed using the Hazardous Substance Response Trust Fund (Fund). Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP, provides that in the event of a significant release from a site deleted from the NPL, the site shall be restored to the NPL without application of the Hazard Ranking System. Deletion of a

site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response actions.
