

the rule become effective. Through this effort, EPA and CMA hope to facilitate early and substantial compliance through the development of timely guidance.

This document is developed for the corporate and plant personnel who would either oversee or perform activities that are affected by the amendment. The guidance document contains eight stand-alone modules that include timelines and questions/answers. The guidance also includes two flow diagrams summarizing the new requirements.

An open process was used to develop this guidance. Both EPA and CMA invited several environmental groups and unions that may have interests in this amendment to participate on the workgroup or review documents developed by the workgroup. In addition, the Agency was also careful to ensure that the development of the guidance did not affect the rulemaking process. To accomplish this, the draft guidance was developed based on the language in the proposed rule and discussions on any potential changes in the final rule were strictly prohibited. Once the rule was promulgated, the draft guidance was amended to reflect the final rule.

DATES: This document will be available to the public after September 27, 1995.

ADDRESSES: Copies of the Section 608 Leak Repair Amendment Guidance Document EPA300-B-95-010 may be obtained by calling the Stratospheric Protection Hotline at (1-800-296-1996) from 9 a.m. to 4 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: For general information contact the Stratospheric Protection Hotline at (800) 296-1996. For information on specific aspects of the guidance document, contact Tracy Back at (202) 564-7076 or Emily Chow at (202) 564-7071, Chemical, Commercial, and Municipal Services Division (2224-A), U.S. Environmental Protection Agency, 401 M Street SW, Washington, DC 20460.

Dated: September 29, 1995.

Richard Colbert,

Acting Director, Office of Compliance.

Science Advisory Board; Notification of Public Advisory Committee Meeting(s), Open Meeting(s)

Pursuant to the Federal Advisory Committee Act, Public Law 92-463,

notice is hereby given that the Radiation Advisory Committee (RAC) of the Science Advisory Board (SAB) will hold public teleconference meetings on the dates and times described below. All times noted are Eastern Time. Information on how to participate in these teleconferences can be found at the end of this notice.

(1) Radiation Advisory Committee (RAC) Teleconference on Environmental Radiation Ambient Monitoring System (ERAMS) Advisory—October 24, 1995

The Radiation Advisory Committee (RAC) will conduct a teleconference meeting on Tuesday, October 24, 1995 from 11:00 am to 1:00 pm. In this teleconference, the RAC intends to discuss and reach closure on its draft advisory report, which provides advice to the Agency on reconfiguring the Agency's Environmental Radiation Ambient Monitoring System (ERAMS) [SAB Project #96-014]. The ERAMS is a continuous monitoring network operating throughout the U.S. and its territories. The basic goals of the network are to provide a means of estimating the ambient levels of radioactive pollutants in the environment, following trends in environmental radioactivity levels, and assessing the impact of fallout and other intrusions of radioactive materials. The RAC had conducted a review of ERAMS on July 13 and 14, 1995 at the Agency's National Air and Radiation Environmental Laboratory (NAREL) in Montgomery, Alabama (See Federal Register, Vol. 60, No. 121, Friday, June 23, 1995, pp. 32674-32675). The RAC was introduced to the topic of this review at its public meeting on May 25, 1995 in which a preliminary discussion occurred on the upcoming advisory review of ERAMS (See Federal Register, Vol. 60, No. 80, Wednesday, April 26, 1995, pp. 20491-20492).

The draft documents that are the subject of this review are available from the originating office (see below) and are *not* available from the SAB Office. To discuss technical aspects of the ERAMS program, or to obtain review and background information provided to the SAB's RAC, please contact Dr. Mary Clark, Technical Advisor, Office of Radiation and Indoor Air (ORIA), U.S. Environmental Protection Agency (6601J), 401 M Street, SW., Washington, DC 20460 (Tel. 202-233-9320; FAX 202-233-9651).

To simply obtain copies of the draft ERAMS documents, please contact Dr. Charles Petko at (334) 270-3400, FAX (334) 270-3451. The background documents that support this review are

available in the Agency's Air and Radiation Docket. Please address written inquiries as follows: USEPA, Attn: Air and Radiation Docket, Mail Stop 6102, Air, Room M1500, First Floor, Waterside Mall, 401 M Street, SW., Washington, DC 20460. The docket may be inspected from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding Federal holidays in Room 1500. A reasonable fee may be charged for copies of docket materials. Inquiries regarding access to the public information docket should be directed to Ms. Jamie Burnett at (202) 233-9340.

(2) Radiation Advisory Committee (RAC) Teleconference on Fiscal Year 1996 Project Planning—October 25, 1995

The Radiation Advisory Committee (RAC) will conduct a teleconference meeting on Wednesday, October 25, 1995 from 11:00 am to 1:00 pm. In this teleconference, the RAC intends to discuss its potential Fiscal Year 1996 review projects. The topics likely to be covered include scheduling and brief preliminary discussions of the tentative charges of the following:

- (a) Environmental Radiation Ambient Monitoring System (ERAMS) II, [SAB Project #96-015],
- (b) ICRP Lung Model for Estimating Doses From Inhaled Particulates, [SAB Project # 96-016],
- (c) Review of Methodology for Estimating Uncertainties in Dose and Risk, [SAB Project #96-017],
- (d) Radon Proficiency Programs, [SAB Project #96-018],
- (e) Radon Measurement Protocol Evaluation Study, [SAB Project #96-019],
- (f) National Survey of Radon in Workplaces, [SAB Project #96-020],
- (g) Methodology for Identifying High Radon Geographic Areas, [SAB Project #96-021],
- (h) Review of Application of Biological Effects of Ionizing Radiation (BIER VI) Report, Prepared by the National Academy of Sciences (NAS), [SAB Project #96-022],
- (i) Review of the Possible Carcinogenicity of Electro-Magnetic Fields (EMF),
- (j) Review of the Agency's Environmental Goals Project (Examination of "measures of success" for environmental goals through the year 2005),
- (k) Reducing Risk II (A follow-up to Reducing Risk, 1990 Project), and
- (l) Futures II (A follow-up to Futures, 1995 Project)

It is not expected in the time-frame available that extensive or comprehensive discussions will occur

on the above projects. Instead, it is anticipated that the main focus of the discussions will be overview and planning for managing the workload and focus of the RAC on the likely charges to be addressed among these topics in the course of the coming fiscal year. It is anticipated that the RAC will have a dialogue with the Agency staff on each of these topics, and if time permits, other possible review topics may be discussed.

To Obtain More Information on or Participate in These SAB Teleconference Meetings

These teleconference meetings are open to the public, telephone lines are limited and available on a first come basis. Any member of the public desiring to participate in the teleconferences, desiring additional information about the meetings, or desiring to obtain copies of the agendas and other information about the conduct of the meetings, or to request time on the agenda for public comments, please contact Ms. Diana Pozun, Staff Secretary, Science Advisory Board (1400F), US EPA, 401 M Street, S.W., Washington D.C. 20460, by telephone at (202) 260-6552 or FAX at (202) 260-7118, or via the INTERNET at: Pozun.Diana@EPAMAIL.EPA.GOV. For questions regarding technical issues to be discussed, please contact Dr. K. Jack Kooyoomjian, Designated Federal Official, Science Advisory Board (1400F), USEPA, 401 M Street, S.W., Washington, D.C. 20460, tel. (202) 260-2560, FAX (202) 260-7118, or via the INTERNET: Kooyoomjian.Jack@EPAMAIL.EPA.GOV.

Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, for teleconference meetings, opportunities for oral comment will be limited to no more than three minutes per speaker and no more than fifteen minutes total. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date (usually one week prior to a meeting or teleconference), may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting, or as soon as possible following a teleconference. Written comments may be provided to the relevant committee

or subcommittee up until the time of the meeting.

Dated: September 26, 1995.

A. Robert Flaak,

Acting Staff Director, Science Advisory Board.

BILLING CODE 6560-50-P

[OPP-50812; FRL-4978-4]

Issuance of Experimental Use Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted experimental use permits to the following applicants. These permits are in accordance with, and subject to, the provisions of 40 CFR part 172, which defines EPA procedures with respect to the use of pesticides for experimental use purposes.

FOR FURTHER INFORMATION CONTACT: By mail: Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

In person or by telephone: Contact the product manager at the following address at the office location, telephone number, or e-mail address cited in each experimental use permit: 1921 Jefferson Davis Highway, Arlington, VA.

SUPPLEMENTARY INFORMATION: EPA has issued the following experimental use permits:

33688-EUP-2. Issuance. CFPI, c/o Registration and Regulatory Services, 5116 Wood Valley Drive, Raleigh, NC 27613. This experimental use permit allows the use of 4,510 pounds (2,255 pounds each year) of the herbicide 4-(1,1-dimethylethyl)-N-(1-methylpropyl)-2,6-dinitrobenzeneamine on 1,000 acres of tobacco (flue-cured) to evaluate the control of tobacco sucker. The program is authorized only in the States of Florida, Georgia, North Carolina, South Carolina, and Virginia. The experimental use permit is effective from August 3, 1995 to August 3, 1997. (Joanne Miller, PM 23, Rm. 237, CM #2, 703-305-7830, e-mail: miller.joanne@epamail.epa.gov)

11312-EUP-100. Issuance. Department of Agriculture, Agricultural Research Service, Rm. 358, Washington, DC 20250-0108. This experimental use permit allows the use of 192 pounds of the insecticides phloxine B and uranine on 1,150 acres of coffee, oranges, and grapefruit to evaluate the control of Mediterranean, Oriental, and Mexican fruit flies. The program is authorized only in the States of California, Hawaii, and Texas. The experimental use permit

is effective from August 10, 1995 to August 10, 1997. A temporary exemption from the requirement of a tolerance has been established. (Robert Forrest, PM 14, Rm. 218, CM #2, 703-305-6600, e-mail:

forrest.robert@epamail.epa.gov)

279-EUP-131. Extension. FMC Corporation, Agricultural Chemical Group, 1735 Market St., Philadelphia, PA 19103. This experimental use permit allows the use of 1,000 pounds of the herbicide N-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1H-1,2,4-triazol-1-yl]phenyl]methanesulfonamide on 2,000 acres of corn, sorghum, soybeans, and wheat to evaluate the control of broadleaf weeds, grasses, and sedges. The program is authorized only in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, and Wisconsin. The experimental use permit is effective from January 1, 1996 to January 1, 1997. Temporary tolerances for residues of the active ingredient in or on corn, sorghum, soybeans, and wheat have been established. (Joanne Miller, PM 23, Rm. 237, CM #2, 703-305-7830)

279-EUP-134. Extension. FMC Corporation, Agricultural Chemical Group, 1735 Market St., Philadelphia, PA 19103. This experimental use permit allows the use of 1,000 pounds of the herbicide N-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-hydroxymethyl-5-oxo-1H-1,2,4-triazol-1-yl]phenyl]methanesulfonamide on 2,000 acres of corn, sorghum, soybeans, and wheat to evaluate the control of broadleaf weeds, grasses, and sedges. The program is authorized only in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, and Wisconsin. The experimental use permit is effective from January 1, 1996 to January 1, 1997. Temporary tolerances for residues of the active ingredient in or on corn, sorghum, soybeans, and wheat have been established. This permit and the one above will use the same active ingredient but different formulations. (Joanne Miller, PM 23, Rm. 237, CM #2, 703-305-7830, e-mail: miller.joanne@epamail.epa.gov)
