BILLING CODE 6717-01-M

[Docket No. ER93-730-000]

Wholesale Power Services, Inc.; Issuance of Order

September 29, 1995.

On June 25, 1993, as amended on July 26, 1995, Wholesale Power Services, Inc. (Power Services) filed an application seeking authority to sell electricity at market-based rates to non-affiliate entities and to broker the sale of power by affiliate entities. Power Services is a wholly-owned subsidiary of CINergy Investments, Inc. CINergy Investments, Inc. is a wholly-owned subsidiary of CINergy, Corp., which is the parent corporation of PSI Energy, Inc. and the Cincinnati Gas & Electric Company. In addition, Power Services's application requested waiver of certain Commission regulations.

In particular, Power Services requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liabilities by Power Services. On September 22, 1995, the Commission issued an Order Accepting For Filing Request For Market-Based Rates, As Modified, And Granting And Denying Waivers And Authorizations (Order), in the above-docketed proceeding.

The Commission's September 22, 1995 Order granted the request for blanket approval under Part 34, subject to the conditions found in Ordering Paragraphs (D), (E), and (G):

(D) Within 30 days of the date of this order, any person desiring to be heard or to protest the Commission's blanket approval of issuances of securities or assumptions of liabilities by Power Services should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214.

(E) Absent a request to be heard within the period set forth in Ordering Paragraph (D) above, Power Services is

authorized to issue securities and to assume obligations or liabilities as guarantor, endorser, surety, or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of the applicant, compatible with the public interest, and reasonably necessary or appropriate for such purposes.

(G) The Commission reserves the right to modify this order to require a further showing that neither public nor private interests will be adversely affected by continued Commission approval of Power Services' issuance of securities or assumptions of liabilities * * *.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is October 23, 1995.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, Room 3308, 941 North Capitol Street, NE., Washington, DC 20426.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5312-6]

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collections as described below.

DATES: Comments must be submitted on or before November 28, 1995.

ADDRESSES: Office of Air and Radiation, Atmospheric Pollution Prevention Division, Mail Code: 6202J, 401 M Street SW., Washington, DC 20460.

FOR FURTHER INFORMATION OR TO RECEIVE

A COPY OF THE ICR CONTACT: Denessa Moses at EPA, (202) 233-9789, FAX number (202) 233-9578 Internet address:

Moses.Denessa@EPAmail.EPA.gov.

SUPPLEMENTARY INFORMATION: Affected entities: Entities potentially affected by this action are the participants in the EPA Green Lights Program, and financing companies who volunteer information on their services.

Office of Air and Radiation

Title: Reporting and Record Keeping Requirements under EPA's Green Light Program, OMB# 2060-0255, ICR# 1614, expires March, 1996.

Abstract

Green Lights is a voluntary EPA program that encourages corporations, state and local governments, colleges and universities, and other organizations to adopt energy efficient lighting as a profitable means of preventing pollution and improving lighting quality. The program organization consists of three types of Green Lights participants: "partners", "allies", and "endorsers". Green Lights Partners agree to survey and upgrade lighting fixtures and procedures, if profitable. Allies work with EPA to increase awareness of energy-efficient lighting and provide information on products and services. Allies (except "Surveyor Allies") also agree to survey and upgrade their lighting. Endorsers agree to encourage their members to promote the Green Lights goal of using lighting in the most energy-efficient and environmentally-protective manner possible.

Partners and allies in the Green Lights program must complete, sign and submit to EPA a Memorandum of Understanding (MOU) that outlines the responsibilities of both the Green Lights participant and EPA. The MOU commits a Green Lights participant to survey all of its U.S. facilities and consider a full set of lighting options that maximize energy savings while being profitable and not compromising lighting quality. The participant agrees to complete lighting upgrades within five years of signing the MOU in 90 per cent of the square footage of its facilities that meet these criteria. Upon completion of a lighting upgrade, or annually if the project is not completed after a year, partners and allies must complete and submit to EPA an implementation report that documents energy-efficient improvements and cost savings. In addition, participants agree to re-survey facilities and re-analyze options at their facilities no later than five years after completing an upgrade.

EPA has developed this ICR to obtain authorization to collect information from Green Lights participants. EPA needs to collect initial information in the MOU to formally establish

participation in the Green Lights Program and to obtain general information on new Green Lights participants. EPA uses information obtained in the MOU to identify a Green Lights Implementation Manager and Media Liaison and to obtain data on the size and type of buildings subject to the Green Lights agreement. By agreeing to participate in the Green Lights Program, the participant agrees to the terms of various information collections specified by EPA in the MOU.

EPA needs to collect information in the Implementation Report to evaluate a participant's progress and performance, and overall program results. The information provided in the Implementation Report also allows EPA to identify the fixture types, lighting controls, maintenance methods, and implementation methods most commonly utilized, and to provide technical and other assistance to participants in completing their planned upgrades. By agreeing to participate in the Green Lights Program, the participant agrees to complete and submit this form upon completion of a project, or annually if the project is not completed after a year.

EPA needs to collect information from allies on energy-efficient lighting products and services to develop a directory and provide program partners with this information. EPA needs to collect case studies on successful energy-efficient lighting investments to provide examples of profitable, energy-saving investments. EPA needs to review, prior to public distribution, any materials that carry the Green Lights logo or mention the program to ensure that the program is being represented in an appropriate manner.

EPA needs to collect information from organizations that provide financing products and services. This information will be used by EPA to develop a directory describing these financing services that are available to assist program participants in accomplishing their lighting upgrades. This information will be collected (via a questionnaire) and is strictly voluntary.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9.

The EPA would like to solicit comments to:

(I) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement

The estimated annual burden to the respondent for this collection of information will vary, depending upon whether the respondent is a Green Lights Partner, Ally, Endorser, or financing company, and the length of time the respondent has participated in the Green Lights program. With this in mind, the respondent burden is estimated at a total of 348,102 hours per year. The average annual respondent burden is estimated at 141 to 145 hours (per partner or ally). New partners and allies will incur a one-time burden averaging 10.92 hours for reviewing and completing the MOU. New endorsers will incur a one-time burden averaging 0.2 hours for reviewing and completing the endorser agreement. These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents

Green Lights Partners and Endorsers include corporations, state and local government, colleges and universities, and other organizations. Green Lights Allies include lighting manufacturers, lighting management companies, and utilities. Companies appearing the EPA financial directory include utility companies and other financing companies.

Estimated number of Respondents

EPA estimates that there will be an average of 1,717 partners, 575 allies, and 395 endorsers during the period covered by this ICR, for a total of 2,687 participants. EPA also estimates that 615 lighting financing providers will submit information to EPA for future publication in a directory.

Frequency of Response

The Memorandum of Understanding (MOU) is completed and submitted once, upon joining the Green Lights program. The implementation progress report is submitted upon project completion or annually if the project is not completed within one year. Case studies and other information on products and services from lighting manufacturers, lighting service providers, and utilities are obtained upon joining the Green Lights program. The lighting financing providers will gather information and submit a financing directory form to EPA four times per year.

Dated: September 29, 1995.

Jerry Lawson,

Acting Deputy Director, Atmospheric Pollution Prevention Division.

The Joint EPA/CMA Guidance Document on Section 608 Leak Repair Amendment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of the Compliance Guidance for Industrial Process Refrigeration Leak Repair Requirements under Section 608 of the Clean Air Act.

SUMMARY: The Environmental Protection Agency announces the availability of a guidance document that was developed jointly by EPA and the Chemical Manufacturers Association (CMA) to provide guidance on the recently promulgated amendments to the leak repair requirements promulgated under Section 608 of the Clean Air Act Amendments of 1990. The amendment was promulgated in 60 FR 40420 on August 8, 1995. This guidance is the first document developed jointly by EPA and industry to provide compliance assistance on a newly promulgated rule on or near the effective date. The intent of this joint project is to provide guidance and compliance assistance to the regulated community before the requirements in
