Certain Hot-Rolled Lead and Bismuth Carbon Steel Products From Germany; Termination of Anticircumvention Inquiry of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of termination of anticircumvention inquiry.

SUMMARY: On August 31, 1995, Inland Steel Bar Company and USS Kobe Steel Company, petitioners in this proceeding, withdrew their petition, filed on August 23, 1994, in which they requested that the Department of Commerce (the Department) initiate an investigation to determine whether imports of certain leaded steel products are circumventing the antidumping order issued against certain hot-rolled lead and bismuth carbon steel products from Germany. The Department is now terminating this anticircumvention inquiry.

EFFECTIVE DATE: October 5, 1995.

FOR FURTHER INFORMATION CONTACT: Matthew Blaskovich or Zev Primor, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-5831/4114.

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1994, pursuant to section 781(b) of the Tariff Act of 1930, as amended, (the Tariff Act) and 19 CFR 353.29 (b) and (f), the Department received a request from petitioners to investigate whether imports of certain

leaded steel products from the Netherlands are circumventing the antidumping duty order issued against certain hot-rolled lead and bismuth carbon steel products from Germany.

Petitioners alleged that Thyssen AG, a German steel producer, is shipping leaded steel billets to its wholly-owned subsidiary Nedstaal BV (Nedstaal), located in the Netherlands, hot-rolling the billets into bars and rods and then exporting them from the Netherlands to the United States.

On February 7, 1995, the Department published in the Federal Register a notice of initiation of the anticircumvention inquiry (60 FR 7166). Subsequently, petitioners withdrew their anticircumvention petition on August 31, 1995. Because withdrawal by petitioners does not unfairly burden the Department or other interested parties, we have determined that it is reasonable to terminate this anticircumvention inquiry.

Dated: September 28, 1995.

Susan G. Esserman,
Assistant Secretary for Import
Administration.

Notice of Final Determination of Sales at Less Than Fair Value: Manganese Sulfate From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: October 5, 1995.

FOR FURTHER INFORMATION CONTACT: Ellen Grebasch, Dorothy Tomaszewski or Erik Warga, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-3773; (202) 482-0631 or (202) 482-0922, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute and to the Department's regulations are in reference to the provisions as they existed on December 31, 1994.

Final Determination

We determine that manganese sulfate from the People's Republic of China (PRC) is being, or is likely to be, sold in the United States at less than fair value (LTFV), as provided in section 733 of the Tariff Act of 1930, as amended (the

Act). The estimated margins are shown in the "Continuation of Suspension of Liquidation" section of this notice.

Case History

Since the preliminary determination on May 9, 1995 (59 FR 25885, May 16, 1995), the following events have occurred:

On May 12, 1995, the Department issued an additional supplemental questionnaire to respondents China National Nonferrous Metals Import and Export Company ("CNIEC") and its U.S. subsidiary, Hunan Chemicals Import and Export Company ("Hunan Chemicals"), Xian Lu Chemical Factory, and Yan Jiang Chemical Factory. The Department received responses and subsequent revisions to those submissions from respondents in June 1995.

Petitioner, American Microtrace Corporation, submitted clerical error allegations following the Department's preliminary determination. The Department found that clerical errors were made in the preliminary determination; however, these errors did not result in a combined change of at least 5 absolute percentage points in, and no less than 25 percent of, any of the original preliminary dumping margins. Accordingly, no revision to the preliminary determination was made (see Notice of Amended Preliminary Determinations of Sales at Less Than Fair Value: Antidumping Duty Investigations of Pure and Alloy Magnesium from the Russian Federation and Pure Magnesium from Ukraine, (60 FR 7519, February 8, 1995)).

In June and July 1995, we verified the respondents' questionnaire responses. Additional publicly available published information on surrogate values was submitted by petitioner and respondents on August 4, 1995, and comments from the respective parties were submitted on August 11, 1995. Petitioner and respondents filed case briefs on August 18, 1995, and rebuttal briefs on August 25, 1995.

Scope of Investigation

The product covered by this investigation is manganese sulfate, including manganese sulfate monohydrate ($\text{MnSO}_4 \cdot \text{H}_2\text{O}$) and any other forms, whether or not hydrated, without regard to form, shape or size, the addition of other elements, the presence of other elements as impurities, and/or the method of manufacture. The subject merchandise is currently classifiable under subheading 2833.29.50 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the
