

[Docket No. MG95-6-001]**Young Gas Storage Co., Ltd.; Notice of Filing**

October 2, 1995.

Take notice that on September 1, 1995, Young Gas Storage Co., Ltd. (Young) filed revised standards of conduct to reflect a change in the ownership structure of Young and to comply with the Commission's August 2, 1995 order directing Young to revise its standards of conduct with respect to Standard I, 18 CFR 161.3(i). 72 FERC 61,141.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with Rules 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All such motions to intervene or protest should be filed on or before October 17, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

[FR Doc. 95-24858 Filed 10-5-95; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. MT95-19-000]**Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff**

October 2, 1995.

Take notice that on September 26, 1995, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, certain revised tariff sheets which tariff sheets are enumerated in Appendix A attached to the filing. Such tariff sheets are proposed to be effective November 1, 1995.

Transco states that the purpose of the instant filing is to revise currently effective tariff provisions to comport with the requirements of Order Nos. 566 and 566-A. On April 13, 1995, the Commission issued its order on the January 31 Filing (April 13 Order). In the April 13 Order, the Commission rejected Second Revised Sheet No. 166 and First Revised Sheet No. 232 without prejudice to Transco resubmitting such

rejected sheets to remove the language that requires shippers to disclose an end user unless the end user is a local distribution company, an interstate or intrastate pipeline.

Transco states that it is refiling Sheet Nos. 166 and 232 with the incorrect language deleted. Additionally, Transco has found similar language on Sheet No. 177 of Rate Schedule IT and is also filing this sheet to remove the incorrect language.

Transco states that it is serving copies of the instant filing to its customers, State Commissions and other interested parties.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E. Washington D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 10, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. PR95-7-000]**Texas Corporation; Notice of Informal Settlement Conference**

October 2, 1995.

Take notice that an informal settlement conference in the above-captioned proceeding will be held on Friday, October 13, 1995, at 10:00 a.m. in a room to be designated at the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Attendance will be limited to the parties and staff. For additional information, please contact Michael J. Ahern at (202) 208-0527.

Lois D. Cashell,

Secretary.

[FR Doc. 95-24860 Filed 10-5-95; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TM96-4-23-000]**Eastern Shore Natural Gas Company; Proposed Changes in FERC Gas Tariff**

October 2, 1995.

Take notice that on September 27, 1995 Eastern Shore Natural Gas Company (ESNG) tendered for filing certain revised tariff sheets included in Appendices A and B attached to the filing. Such revised tariff sheets bear proposed effective dates as indicated therein.

ESNG states that the purpose of the instant filing is to track storage rate changes attributable to (1) storage service purchased from Columbia Gas Transmission (Columbia) under its Rate Schedules FSS and SST, the cost of which are included in the rates and charges payable under ESNG's Rate Schedules CWS-1 and CFSS-1, respectively, and (2) storage service purchased from Transcontinental Gas Pipe Line Corporation (Transco) under its GSS and LSS Rate Schedules, the costs of which are included in the rates and charges payable under ESNG's Rate Schedules GSS-1 and LSS-1, respectively. This tracking filing is being made pursuant to Section of the General Terms and Conditions of ESNG's FERC Gas Tariff First Revised Volume No. 1. ESNG states that Appendices C and D attached to the filing contain the rate changes and details regarding the computation of the revised CWS-1, CFSS-1, GSS-1, and LSS-1 rates, respectively.

ESNG states that copies of the filing have been served upon its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 and Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR Section 385.211 and Section 385.214). All such motions or protests shall be filed on or before October 10, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5313-3]

Agency Information Collection Activities up for Renewal**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) listed below is coming up for renewal. Before submitting the renewal package to the Office of Management and Budget (OMB), EPA is soliciting comments on specific aspects of the collection as described below.

DATES: Comments must be submitted on or before December 5, 1995.

ADDRESSES: Office of Wetlands, Oceans, and Watersheds (4503F), 401 M Street SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT:

Barry Burgan, National 305(b) Coordinator, telephone: (202) 260-7060; facsimile: (202) 260-1977; email: burgan.barry@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities affected by this action are the 50 States, the District of Columbia, five Territories (Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands). Four Interstate River Basin Commissions and five Indian Tribes or Tribal Groups also sent data to EPA during the period covered by the current ICR. The SIC code for respondents is 9511 (Administration of Environmental Quality).

Programs: Air and Water Resources and Solid Waste Management).

Title: National Water Quality Inventory Reports (Clean Water Act Sections 305(b), 303(d), and 314(a)). OMB Control Number 2040-0071. Expiration date: February 29, 1996.

Abstract: Section 305(b)(1) of the Clean Water Act (Pub. L. 92-500, 33 U.S.C 1251 *et seq.*; most recently amended in 1987 by Pub. L. 100-4) requires each State to prepare and submit a biennial water quality assessment report to the EPA Administrator. Regulations for water quality monitoring, planning, management and reporting are found in 40 CFR part 130. Each 305(b) report includes such information as a description of the quality of waters of the State; an analysis of the extent to which these waters provide for the protection and propagation of a balanced population of shellfish, fish,

and wildlife, and allow recreational activities in and on the water; recommendations for additional action necessary to achieve such uses; an estimate of the environmental impact and economic and social costs as well as the economic and social benefits of such achievement; and a description of the nature and extent of nonpoint sources of pollutants and recommendations as to programs needed to control each category of such sources.

Under CWA Section 314(a)(2), States must incorporate their Clean Lakes Report into the 305(b) reports. Clean Lakes Reports include an identification and classification according to trophic condition of all publicly owned lakes; a description of the methods to control sources of pollution and restore these lakes; methods to mitigate the harmful effects of high acidity; a list and description of publicly owned lakes for which uses are known to be impaired; and an assessment of the status and trends of water quality in lakes.

Section 303(d)(1) of the CWA requires States to identify and rank water-quality limited waters which will not meet State water quality standards after implementation of technology-based point source controls.

Reporting under Sections 305(b) and 314 is thus required of the 50 States. Reporting activities under Section 303(d) may be submitted as part of the 305(b) report or may be submitted under separate cover. Other respondents (Territories, River Basin Commissions, certain Indian Tribes or Tribal Groups) also prepare 305(b) reports to document the quality of their waters to EPA, Congress, and the public and, in some cases, to meet grant conditions.

The 305(b) reporting process is an essential component of the EPA water pollution control program. EPA's Office of Water uses the 305(b) reports as the principal information source for assessing nationwide water quality, progress made in maintaining and restoring water quality, and the extent of remaining water pollution problems. EPA prepares the National Water Quality Inventory Report to Congress and evaluates impacts of EPA's water pollution control programs with the information and data supplied in the State and Tribal 305(b) reports and the corresponding national database, the EPA Waterbody System. The Office of Water uses the Report to Congress to target persistent and emerging water quality problems with new initiatives and to improve or eliminate ineffective programs.

EPA uses the information submitted under Section 314 to evaluate the

effectiveness of the Clean Lakes grant program. The Agency assembles national information on water quality trends in lakes eligible for Section 314 grants, initiation and completion of Clean Lakes Projects funded with 314 grants, and tangible results of lake restoration projects.

Under Section 303(d) EPA must review and approve or disapprove the State lists of water-quality limited waterbodies still requiring total maximum daily loads (TMDLs). Section 303(d) of the CWA establishes the TMDL process to provide for more stringent water-quality based controls when required Federal, State or local controls are inadequate to achieve State water quality standards. TMDLs encourage a holistic view of water quality problems considering all contributions and instream water quality and provide a method to allocate those contributions to meet water quality standards.

The next 305(b) reports and 303(d) lists are due to EPA in April 1996. Prior to each 305(b) reporting deadline, EPA publishes guidelines on the types of information requested of respondents in their 305(b) reports. The current edition is Guidelines for the Preparation of the 1996 State Water Quality Assessments (305(b) Reports), EPA 841-B-95-001, May 1995 (see contact information above).

An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9. This ICR renewal does not involve third-party and public disclosures not previously reviewed and approved by OMB.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The existing burden estimate for all reporting and

recordkeeping (from the currently approved ICR) was 256,654 burden hours per year. This estimate was based on 58 respondents and a biennial response frequency, and was equivalent to an average of 8,850 burden hours per biennial response. This estimate includes the time needed to review instructions, search existing data sources, gather and maintain the data needed, and complete and review the collection of information. EPA intends to reduce the burden in the future by reducing the frequency for submitting the actual 305(b) reports to 5 years with annual electronic reporting on core elements for the geographic areas covered in that year.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: September 29, 1995.

Robert H. Wayland III,

Director, Office of Wetlands, Oceans and Watersheds.
