

Notes on Cosmetic Surgery Changes

^a Charges for Surgical Care Services contained in Section I.B. (See Notes 8 through 10 on reimbursable rates for further details.)

^b Charges for Same Day Surgery are contained in Section II.L. (See Notes 8 through 10 on reimbursable rates for further details.)

Notes on Reimbursable Rates

¹ Percentages are applied to both inpatient and outpatient services provided when billing third party payers (e.g., insurance companies). Pursuant to the provisions of 10 U.S.C. 1095, the inpatient Diagnosis Related Groups are 96 percent hospital and 4 percent professional fee. The outpatient per visit percentages are 58 percent hospital, 29 percent ancillary and 13 percent professional

² DoD civilian employees located in overseas areas shall be render a bill when services are performed. Payment is due 60 days from the date of the bill.

³ The cost of DRG (Diagnosis Related Groups) is based on the inpatient full reimbursement rate per hospital discharge, weighted to reflect the intensity of the principal diagnosis involved. The adjusted standardized amounts (ASA) per Relative Weighted Product (RWP) for use in the Direct Care System will be comparable to procedures utilized by Health Care Financing Administration (HCFA) and the Civilian Health and Medical Program for the Uniformed Services (CHAMPUS). These expenses include all direct care expenses associated with direct patient care. The average cost per relative weight product for large urban, other urban/rural, and overseas will be published annually as an inpatient standardized amount and will include the cost of inpatient professional services. The DRG rates will apply to reimbursement from all sources, not just third party payers.

⁴ The Medical Expense and Performance Reporting System (MEPRS) code is a three digit code which defines the summary account and the subaccount within a functional category in the DoD medical system. An example of this hierarchical arrangement is as follows:

Outpatient Care (Functional Category)	Meprs code
Medical Care (Summary Account)	BA
Internal Medicine (Subaccount)	BAA

MEPRS codes are used to ensure that consistent expense and operating performance data is reported in the DoD military medical system.

⁵ High Cost prescription services requested by external providers (Physicians, Dentists, etc.) are only relevant to the Third Party Collection Program. Third party payers (such as insurance companies) shall be billed for high cost prescriptions in those instances in which dependents who have medical insurance, seen by provides external to a Military Medical Treatment Facility (MTF), obtain the prescribed medication from an MTF. Eligible beneficiaries (family members or retirees with medical insurance) are not personally liable for this cost and shall not

be billed by the MTF. A third party payer may be billed if the total prescription costs in a day exceed \$25.00 when bundled together. The standard cost of high cost medications include the cost of the drugs plus a dispensing fee, per prescription. The prescription cost is calculated by multiplying the number of units (tablets, capsules, etc.) times the unit cost and adding a \$7.00 dispensing fee per prescription.

⁶ Charges for high cost services requested by external providers (Physicians, Dentists, etc.) are only relevant to the Third Party Collection Program. Third party payers (such as insurance companies) shall be billed for high cost services in those instances in which dependents who have medical insurance, seen by provides external to a Military Medical Treatment Facility (MTF), obtain the prescribed service from an MTF. Eligible beneficiaries (family members or retirees with medical insurance) are not personally liable for this cost and shall not be billed by the MTF. A third party payer may be billed if the total ancillary services costs in a day exceed \$25.00 when bundled together.

⁷ The attending physical is to complete the Physicians' Current Procedural Terminology code to indicate the appropriate procedure followed during cosmetic surgery. The appropriate rate will be applied depending on the admission type of the patient, e.g., outpatient surgical, same day/ambulatory surgery, or surgical care services.

⁸ Family members of active duty personnel, retirees and their family members, and survivors will be charged cosmetic surgery rates. The patient shall be charged the rate as specified in the FY 1996 reimbursable rates for an episode of care. The charges for elective cosmetic surgery are at the full reimbursement rate (designated as the "Other" rate) for Surgical Care Services in Section I.B., or Same Day Surgery as contained in Section II.L. of this attachment. The patient will be responsible for both the cost of the implant(s) in addition to the prescribed cosmetic surgery rates.

Note: The implants and procedures used for the augmentation mammoplasty are in compliance with Federal Drug Administration Guidelines.

⁹ Each regional lipectomy will carry a separate charge. Regions include head and neck, abdomen, flanks, and hips.

¹⁰ These procedures are inclusive in the minor skin lesions. However, CHAMPUS separates them as noted here. All charges are for the entire treatment regardless of the number of visits required.
