Trunkline Gas Co.; Notice of Proposed Changes in FERC Gas Tariff

October 3, 1995.

Take notice that on September 28, 1995, Trunkline Gas Company (Trunkline) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, revised tariff sheets, as listed on Appendix A attached to the filing, proposed to be effective October 29, 1995.

Trunkline states that this filing is being made to introduce the Premium Alternative Transportation option available under Trunkline's existing Rate Schedule IT and to expand the array of features available under Rate Schedule TABS-1. Specifically, the Premium Alternative Transportation option offers a transportation service with a higher scheduling and more favorable curtailment priority than currently available interruptible transportation under Rate Schedule IT. Shippers under this option will pay an annual contracting fee and usage charges for actual volumes moved. All other features are the same as currently available Rate Schedule IT service.

Trunkline also states that transfer and parking services have been added to Rate Schedule TABS-1. A TABS-1 party may transfer gas to another TABS-1 party with a TABS-1 Service Agreement at the same TABS-1 Service Point on an interruptible basis with the prior approval of Trunkline. This service is limited to one transfer direction (to either receive or deliver gas) per day per TABS-1 party; however, a TABS-1 party may make an

unlimited number of transfer transactions on any day provided the transfer direction is consistent. For this service the TABS-1 party receiving the gas will pay a transfer fee per transaction. The interruptible parking service allows the TABS-1 party to nominate gas to and from parking for the account of the TABS-1 party to be parked at the TABS-1 Service Point specified in the TABS-1 Service Agreement. For this service the TABS-1 party will pay a daily parking charge.

Trunkline further states that copies of this filing are being mailed to all shippers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 11, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
