#### Western Area Power Administration

#### Central Valley Project Notice of Rate Order No. WAPA-72

**AGENCY:** Western Area Power Administration, DOE.

**ACTION:** Notice of Rate Order—Central Valley Project commercial firm power rate adjustment.

**SUMMARY:** Notice is given of the confirmation and approval by the Deputy Secretary of the Department of Energy (DOE) of Rate Order No. WAPA-72 and Rate Schedule CV-F8 placing provisional commercial firm power rates for capacity and energy from the Central Valley Project (CVP) of the Western Area Power Administration (Western) into effect on an interim basis. The provisional rates, will remain in effect on an interim basis until the Federal Energy Regulatory Commission (FERC) confirms, approves, and places them into effect on a final basis or until they are replaced by other rates.

The commercial firm power rates will provide sufficient revenue to pay all annual costs including interest expense, plus repayment of required investment within the allowable time period. These rates consist of a capacity rate, energy base rate, and energy tier rate. The energy tier rate is applied to energy at a 70 percent and higher load factor, and is based on the average CVP Northwest energy rate. The load factor is computed based on the lesser of the customer's (1) maximum demand for the month, or if a scheduled customer, the maximum scheduled demand for the month; or (2) the customer's Contract Rate of Delivery (CRD) for commercial firm power.

A comparison of existing and provisional rates follows:
