**Intent To Prepare Environmental  
Impact Statement, Proposed Terminal  
Doppler Weather Radar To Serve John  
F. Kennedy International Airport (JFK)  
and LaGuardia Airport (LGA)**

**AGENCY:** Federal Aviation  
Administration, DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The Federal Aviation Administration (FAA) intends to prepare an Environmental Impact Statement (EIS) to address the environmental impact of a proposal to construct and operate a terminal Doppler weather radar (TDWR) at a proposed site at Coast Guard Air Station Brooklyn (CGASB), New York. The proposed TDWR would serve both JFK and LGA Airports. The FAA has determined that it is critical to include the New York metropolitan area in the nationwide campaign to improve aviation safety. In addition to detecting wind shear for FAA reports to pilots, the TDWR would provide weather data to the Coast Guard for their search and rescue operations. The EIS will be prepared following FAA procedures for implementing the National Environmental Policy Act of 1969, as amended, (NEPA), 42 U.S.C. 4332(2)(C), and consistent with the FAA's policy to facilitate public understanding and scrutiny of agency proposals. This notice of intent is published as required by the President's Council on Environmental Quality regulations implementing the provisions of NEPA, 40 CFR Parts 1500-1508.

**SUPPLEMENTARY INFORMATION:** The Federal Aviation Administration (FAA), proposes to construct and operate a TDWR to serve both JFK and LGA Airports. The preferred site for this FAA
