October 4, 1995.

Take notice that on September 29, 1995, National Fuel Gas Supply Corporation (National), 10 Lafayette Square, Buffalo, New York 14203, filed in Docket No. CP95-792-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211) for authorization to construct and operate a new sales tap under National's blanket certificate issued in Docket No. CP83-4-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

National proposes to construct and operate a new sales tap in Warren, Pennsylvania, for delivery of natural gas to a new end-user shipper, United Refining Company (United Refining). National projects that deliveries for this tap would amount to 182,000 Dth annually of firm transportation and 360,000 Dth annually of interruptible transportation, which would have a minimal impact on National's peak day and annual deliveries. National states that United Refining would reimburse National for the actual cost of constructing the sales tap, estimated to be \$80,000.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. National Fuel Gas Supply Corporation; Notice of Petition to Amend

October 4, 1995.

Take notice that on September 21, 1995, as supplemented on September 29, 1995, National Fuel Gas Supply Corporation (National Fuel), 10 Lafayette Square, Buffalo, NY 14203, filed with the Commission in Docket No. CP90-2086-002 a petition pursuant to Section 7(c) of the Natural Gas Act (NGA) requesting authority to amend its certificate of public convenience and necessity authorizing operation of the Limestone Storage Field (Limestone) on a permanent basis, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

By order dated November 28, 1990, in Docket No. CP90-2086-000, the Commission issued to National Fuel a certificate authorizing the operation of Limestone, then known as the Allegany State Park Storage Field, for a period of three years. By order dated November 4, 1993, the Commission extended the term of National Fuel's authorization to operate Limestone to the earlier of December 31, 1995, or the effective date of a permanent certificate.

National Fuel states that it is now seeking permanent authorization to operate Limestone as an interstate storage facility pursuant to Section 7 of the NGA. National Fuel says that a permanent certificate for Limestone will enable National Fuel to provide long term storage services for National Fuel Gas Distribution Corporation under National Fuel's ESS rate schedule. National Fuel does not propose to construct or acquire any new facilities at this time.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 25, 1995, file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).
