Title of Proposal: Evaluation of the HOME Program, Round Three Data Collection.

Description of the need for the information and proposed use: The information collected is part of an evaluation that will help the Department assess the outcomes created by the HOME Investment Partnerships Program. Interviews with program administrators, project owners, and the homeowners and renters who are the beneficiaries of the program will be used to determine program costs,

benefits, and overall program implementation. Evaluation results will be used by program designers and regulators at HUD and elsewhere interested in improving the effectiveness of the program, and by program administrators in State and local governments.

In-person interviews will be conducted with a sample of 40 local program administrators. As this is the third round of data collection for this evaluation, program administration information will be updated from previous interviews. The administrators will be asked about specific projects and programs they have funded with HOME funds. In addition, program administrators for every State will be interviewed by telephone. These interviews will also ask about program administration, but will not go into details on specific projects.

To supplement information gathered from files on-site at the 40 local government offices, interviews will be conducted with project developers, who may be for-profit or non-profit organizations. The purpose of this data collection effort is to estimate the costs of projects funded by HOME.

To estimate the benefits associated with the HOME program, telephone interviews will be conducted with a sample of 300 renters in HOME-funded rental projects, 200 homebuyers from HOME-funded homeownership projects, 150 homeowners from HOME-funded owner-occupied rehabilitation projects, and 150 renters receiving rental assistance through HOME.

Members of affected public: Individuals and households, businesses, not-for-profit institutions, and State and local governments will be interviewed as part of this data collection effort.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Interview respondents	Number of respondents	Responses per respondent	Minutes per respondent	Total burden hours
Local Program Officials	40	1	120	80
State Program Officials	50	1	120	100
Property Owners (For-profits and non-profits)	300	1	75	375
Residents (Owners and Renters)	800	1	15	200

Status of the proposed information collection: Awaiting OMB approval.

Authority: Sec. 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: October 2, 1995.
