

the actual or projected economic or employment impact in a particular State or congressional district of an acquisition program for which all research, development, testing, and evaluation has not been completed. Similar statutory language has been included in annual Defense appropriations acts and is presently implemented at DFARS 231.205-22(a), as a cost principle applicable to commercial organizations. This proposed rule expands the applicability of the cost principle to educational institutions; State, local, and federally recognized Indian tribal governments; and nonprofit organizations; as the statutory prohibition applies to all DoD contractors.

B. Regulatory Flexibility Act

The proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because most contracts awarded to small businesses are awarded competitively on a firm-fixed-price basis and, therefore, are not subject to DFARS cost principles. An initial regulatory flexibility analysis, therefore, has not been performed. Comments from small entities concerning the affected DFARS subparts will be considered in accordance with Section 610 of the Act. Such comments must be submitted separately and cite DFARS Case 95-D714 in correspondence.

C. The Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed rule does not impose recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Defense Federal Acquisition Regulation Supplement; Internal Restructuring Costs

AGENCY: Department of Defense (DoD).

ACTION: Proposed rule; withdrawal.

SUMMARY: The Department of Defense has decided to withdraw a proposed rule published on January 12, 1995 (60 FR 2924). The rule proposed revisions to the Defense Federal Acquisition Regulation Supplement (DFARS) to state that contractor costs associated with internal restructuring activities are unallowable unless allowable in accordance with FAR Part 31 and DFARS Part 231; an audit of projected restructuring costs and savings is performed; and the ACO determines that overall reduced costs should result for DoD and negotiates an advance agreement with the contractor. After review of public comments, DoD has determined that the proposed DFARS revisions are unnecessary.
