

- Office of Health and Environmental Research Program Overview: Scope, Issues, Budget
- Review of Office of Health and Environmental Research Programs
- Review of Subcommittee Reports
- New Business
- Public Comment (10-minute rule)

Public Participation: The two-day meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Benjamin Barnhart at the address or telephone number listed above. Requests to make oral statements must be received 5 days prior to the meeting; reasonable provision will be made to include the statement in the agenda. The Chairperson of the Committee is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Transcripts: The transcript of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C., between 9:00 a.m. and 4:00 p.m., Monday through Friday, except holidays.

Issued in Washington, D.C. on October 6, 1995.

Rachel Murphy Samuel,
Acting Deputy Advisory Committee
Management Officer.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Docket No. CP95-595-000]

Texas Eastern Transmission Corporation; Notice of Availability of the Environmental Assessment for the Proposed Brazos River Crossing Project

October 6, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Texas Eastern Transmission Corporation (Texas Eastern) in the above-referenced docket. The EA was prepared to satisfy the requirements of the National Environmental Policy Act.

Texas Eastern's proposal would move the existing Brazos River crossing to the north, and would require entirely new right-of-way. The staff recommends that

Texas Eastern use the original river crossing location for the project, as part of its Alternate Route 2, as shown in figure 2 of the EA. The staff concludes that approval of the modified project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction of the following facilities:

- about 1.56 miles of new 24-inch-diameter mainline between mileposts (MP) 52.25 and 53.81 of Texas Eastern's existing Line No. 11, including a new crossing of the Brazos River by directional drill, in Austin and Waller Counties, Texas; and
- abandonment by removal of about 166 feet of 24-inch-diameter Line No. 11, and 128 feet of an auxiliary 16-inch-diameter pipeline at the existing crossing of the Brazos River in Austin and Waller Counties, Texas.

It also examines one route variation and two alternate routes to use the existing right-of-way, and avoid impacts to wetlands and pecan trees.

The purpose of the proposed facilities would be to replace the existing Brazos River crossing because the two existing pipelines have been exposed by erosion in the river channel. River scour has also eroded the bank to within 150 feet of the existing pipeline.

The EA has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 941 North Capitol Street, N.E., Room 3104, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

A limited number of copies of the EA are available from: Mr. Jeff Gerber, Environmental Project Manager, Environmental Review and Compliance Branch II, Office of Pipeline Regulation, Room 7312, 825 North Capitol Street, N.E., Washington, DC 20426, (202) 208-1121.

Any person wishing to comment on the EA may do so. Written comments must reference Docket No. CP95-595-000, and be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Comments should be filed as soon as possible, but must be received no later than November 6, 1995, to ensure consideration prior to a Commission decision on this proposal. A copy of any

comments should also be sent to Mr. Jeff Gerber, Environmental Project Manager, Room 7312, at the above address.

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your comments considered.

Additional information about this project is available from Mr. Jeff Gerber, Environmental Project Manager, (202) 208-1121.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Project No. 2550-002]

N.E.W. Hydro, Inc., Weyauwega Hydroelectric; Notice of Site Visit

October 6, 1995.

The Federal Energy Regulatory Commission (FERC) has received an application for new minor license of the Weyauwega Hydroelectric Project, FERC No. P-2550-002. The project is located on the south shore of Waupaca River in the City of Weyauwega, Wisconsin.

The FERC staff intends to prepare an Environmental Assessment (EA) on the hydroelectric project in accordance with the National Environmental Policy Act.

As part of the EA preparation process, FERC staff will conduct a site visit of the project on October 24, 1995. The site visit will provide an opportunity for interested parties to observe environmental conditions at the project area.

If you would like to attend the site visit, we will meet at 1:30 p.m. on October 24, 1995. The Weyauwega Hydro Project directions to the meeting location are as follows:

The dam is located on highway 110. From Appleton, WI, take highway 10 west to highway 110. Follow highway 110 north through the City of Weyauwega and the dam is located on the south shore of the Waupaca River.

We will conclude the site visit at the Hydroelectric Project location. Please be

aware that you will be responsible for your own lodging, transportation, and meals.

Please notify Mr. Loyal Gake, North American Hydro, Inc. at (414) 293-4628, if you plan to attend the site visit. All those attending the site visit are urged to refrain from any communication concerning the merits of the license application to any member of the Commission staff or Commission's Contractor, CH2M HILL, outside of the established process for developing the licensing record.

For further information, please contact Ms. Angela Oliver at (202) 219-2998.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Project Nos. 11496-000 and 2523-007]

City of Oconto Falls and N.E.W. Hydro, Inc., Oconto Falls Hydroelectric Projects; Notice of Site Visit

October 6, 1995.

The Federal Energy Regulatory Commission (FERC) has received an application for new minor license of the Oconto Falls Hydroelectric Project, FERC No. P11496-000 and P-2523-007. The project is located on the Oconto River in southcentral Oconto County, Wisconsin.

The FERC staff intends to prepare an Environmental Assessment (EA) on the hydroelectric project in accordance with the National Environmental Policy Act.

As part of the EA preparation process, FERC staff will conduct a site visit of the project on October 25, 1995. The site visit will provide an opportunity for interested parties to observe environmental conditions at the project area.

If you would like to attend the site visit, we will meet at 10:00 p.m. on October 25, 1995. The Oconto Falls Hydro Project directions to the meeting location are as follows:

The dam is located on Maple Street in the City of Oconto Falls. From Green Bay, WI, take highway 141 north to highway 22. Follow highway 22 west into the City of Oconto Falls. Turn left on county trunk CC (Maple Street). The dam will be on the right.

We will conclude the site visit at the Hydroelectric Project location. Please be aware that you will be responsible for your own lodging, transportation, and meals.

Please notify Mr. Charles Alsberg, North American Hydro, Inc. at (414) 293-4628, if you plan to attend the site

visit. All those attending the site visit are urged to refrain from any communication concerning the merits of the license application to any member of the Commission staff or Commission's Contractor, CH2M HILL, outside of the established process for developing the licensing record.

For further information, please contact Ms. Angela Oliver at (202) 219-2998.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Docket No. GT95-58-000]

Columbia Gas Transmission Corporation; Notice of Refund Report

October 6, 1995.

Take notice that on September 14, 1995, Columbia Gas Transmission Corporation (Columbia Gas) tendered for filing a refund report pursuant to the Commission's May 3, 1995, "Order Granting Clarification" issued in Docket No. RP95-124-001.

Columbia Gas states that it has refunded the Gas Research Institute demand surcharge collected on capacity released at less than maximum rates for the period January 1, 1994 through June 30, 1995. Columbia Gas further states that it made these refunds in the form of credits to invoices issued on or around August 10, 1995 which were payable to Columbia Gas on or before August 20, 1995. The total amount credited was \$1,136,267.79.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

[Docket No. GT95-59-000]

Columbia Gulf Transmission Company; Notice of Refund Report

October 6, 1995

Take notice that on September 14, 1995, Columbia Gulf Transmission Company (Columbia Gulf) tendered for filing a refund report pursuant to the Commission's May 3, 1995, "Order Granting Clarification" issued in Docket No. RP95-124-001.

Columbia Gulf states that it has refunded the Gas Research Institute demand surcharge collected on capacity released at less than maximum rates for the period January 1, 1994 through June 30, 1995. Columbia Gulf further states that it made these refunds in the form of credits to invoices issued on or around August 10, 1995 which were payable to Columbia Gulf as on or before August 20, 1995. The total amount credited was \$1,249.53.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
