

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at (703) 487-4630.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, DC this 6th day of October 1995.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510-27-M

NUCLEAR REGULATORY COMMISSION**Advisory Committee on Reactor Safeguards; Joint Meeting of the Subcommittees on Individual Plant Examinations/Probabilistic Risk Assessment; Notice of Meeting**

The ACRS Subcommittees on Individual Plant Examinations (IPEs) and on Probabilistic Risk Assessment (PRA) will hold a joint meeting on October 26 and 27, 1995, in the Commission Hearing Room (first floor of OWFN), 11555 Rockville Pike, Rockville, Maryland.

The meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Thursday, October 26, 1995—8:30 a.m. until the conclusion of business

Friday, October 27, 1995—8:30 a.m. until the conclusion of business

The Subcommittees will discuss topics related to Risk Based Regulatory Applications (RBRA), including identification of the regulatory issues that are currently amenable to risk based regulatory approach, the adequacy of IPEs and IPEEs for risk based regulatory applications. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittees, their consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittees, along with any of their consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Dr. Medhat El-Zeftawy (telephone 301/415-6889) between 7:30 a.m. and 4:15 p.m. (est). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: October 5, 1995.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-M

[Docket No. 50-245]

Northeast Nuclear Energy Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Northeast Nuclear Energy Company (the licensee) to withdraw its May 26, 1995, application for proposed amendment to Facility Operating License No. DPR-21 for Millstone Nuclear Power Station, Unit 1, located in New London County, Connecticut.

The proposed amendment would have deleted the existing limiting conditions for operation (LCOs) and surveillance requirements and added new LCOs, surveillance requirements, and bases for loss of normal power instrumentation.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on June 21, 1995, (60 FR 32371). However, by letter dated October 3, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 26, 1995, and the licensee's letter dated October 3, 1995, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Learning Resource Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360.

Dated at Rockville, Maryland, this 5th day of October, 1995.

For the Nuclear Regulatory Commission.

James W. Andersen,

Project Manager, Project Directorate I-3, Division of Reactor Projects-I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

[Docket No. 50-397]

Washington Public Power Supply System; WPPSS Nuclear Project No. 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to technical specifications (TSs) for Facility Operating License No. NPF-21,

issued to Washington Public Power Supply System (WPPSS, or the licensee) for operation of the WPPSS Nuclear Project No. 2, located in Benton County, Washington.

Environmental Assessment

Identification of the Proposed Action

The proposed action would modify the Index of the WNP-2 Technical Specifications (TS) to remove reference to the TS Bases pages.

The proposed action is in accordance with the licensee's application for amendment dated June 6, 1995.

The Need for the Proposed Action

The proposed action deletes reference to the TS Bases pages and is in accordance with 10 CFR 50.36(a), which indicates that the Bases shall not become a part of the TS.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the modification to the Index of the WNP-2 TS is administrative in nature.

The change will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational radiation exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does involve features located entirely within the restricted area as defined in 10 CFR part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded there is no measurable environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for WNP-2.

Agencies and Persons Consulted

In accordance with its stated policy, on October 5, 1995, the staff consulted with the Washington State official, Mr. R. R. Cowley of the Department of Health, State of Washington Energy Facility Site Evaluation Council, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated June 6, 1995, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the local public document room located at the Richland Public Library, 955 Northgate Street, Richland, Washington 99352.

Dated at Rockville, Maryland, this 6th day of October 1995.

For the Nuclear Regulatory Commission,
Kristine M. Thomas,
Acting Project Manager, Project Directorate IV-2, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-36331; File No. SR-CBOE-95-49]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating to Telephones on the Floor of the Exchange

October 3, 1995.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on August 25, 1995, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities

and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE has adopted a Regulatory Circular governing the use of member-owned or Exchange-owned telephones located at the trading post where options on the Standard & Poor's 100 Stock Index ("OEX Options") are traded, and has determined to file this Circular as a proposed rule change pursuant to Section 19(b)(2) of the Act.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the Regulatory Circular is to permit telephones located at the OEX trading post on the floor of the Exchange to provide members and clerks with access to outside lines for outgoing calls, subject to the conditions set forth in the Circular. With the exception of the prohibition on the use of telephones at the OEX trading post to receive incoming calls, these conditions are the same as those previously approved by the Commission governing the use of telephones at the equity option trading posts on the floor of the CBOE.²

Exchange Rule 6.23 prohibits members from establishing or maintaining any telephone or other wire communications between their offices and the Exchange floor without prior approval by the Exchange, and it
