Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Registration

By Notice dated April 14, 1995, and published in the Federal Register on April 27, 1995 (60 FR 20751), Johnson Matthey, Inc., Custom Pharmaceuticals Department, 2003 Nolte Drive, West Deptford, New Jersey 08066 (Johnson Matthey), made application to the Drug Enforcement Administration (DEA) to be registered as a bulk manufacturer of the following basic classes of controlled substances:

Sufentanil (9740)	II
Carfentanil (9743)	II
Fentanyl (9801)	II

Pursuant to 21 CFR 1301.43, any pending applicant or person currently registered with DEA to manufacture these controlled substances were invited to file comments or a written request for a hearing on Johnson Matthey's application. Two comments and several requests for hearing were received by DEA.

One comment requested denial of Johnson Matthey's application with respect to 2,5-dimethoxyamphetamine on the ground that adequate domestic supplies of that controlled substance exist. The second comment raised issues as to whether Johnson Matthey could maintain appropriate and effective safeguards to prevent theft and diversion of meperidine. The commenter further stated that it is

Johnson Matthey's burden to prove that its registration as a bulk manufacturer of meperidine is in the public interest. Neither of these commenters requested a hearing.

The comments were considered, however, DEA has found that the firm does not constitute a new source of 2,5-Dimethoxyamphetamine for domestic supplies since the firm has been approved as a manufacturer of this controlled substance on previous applications. DEA has also reviewed the firm's safeguards to prevent the theft and diversion of meperidine and found that the firm has met the regulatory requirements of the Controlled Substances Act. Therefore, DEA has determined that the application should be approved for these controlled substances.

Written requests for hearing were filed with respect to methylphenidate, codeine, oxycodone, hydrocodone, morphine, oxymorphone, levorphanol, methadone, methadone intermediate, meperidine intermediate-A, meperidine intermediate-B and meperidine intermediate-C. By letter to the Deputy Assistant Administrator, Office of Diversion Control, DEA, dated July 27, 1995, Johnson Matthey withdrew its application for registration as a bulk manufacturer of all of these controlled substances, with the exception of methylphenidate. The request for a hearing on methylphenidate was docketed before Administrative Law Judge Mary Ellen Bittner as Docket No. 95-41.

On May 8, 1995, as a result of an earlier proceeding, the Deputy Administrator of the DEA issued a final order granting Johnson Matthey's prior application for registration as a bulk manufacturer of methylphenidate. 60 FR 26050. Due to the pending administrative proceeding concerning methylphenidate, Johnson Matthey will continue on a day-to-day registration to bulk manufacture methylphenidate pending resolution of Docket No. 95-41. Pursuant to Section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and Title 21, Code of Federal Regulations, Section 1301.54(e), the Deputy Assistant Administrator, Office of Diversion Control, hereby orders that the application submitted by Johnson Matthey for registration as a bulk manufacturer be granted for the following basic classes of controlled substances: 2,5-dimethoxyamphetamine, difenoxin, hydromorphone, diphenoxylate, meperidine, alfentanil, sufentanil, carfentanil and fentanyl.
