SUPPLEMENTARY INFORMATION:

A. Purpose

The information relative to the place of performance and owner of plant or facility, if other than the prospective contractor, is a basic requirement when contracting for supplies or services (including construction). This information is instrumental in determining bidder responsibility, responsiveness, and price reasonableness. A prospective contractor must affirmatively demonstrate its responsibility. Hence, the Government must be apprised of this information prior to award. The contracting officer must know the place of performance and the owner of the plant or facility to (a) determine bidder responsibility; (b) determine price reasonableness; (c) conduct plant or source inspections; and (d) determine whether the prospective contractor is a manufacturer or a regular dealer. The information is used to determine the firm's eligibility for awards and to assure proper preparation of the contract.

Public reporting burden for this collection of information is estimated to average 4 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Bid/Offer Acceptance Period. FOR FURTHER INFORMATION CONTACT: Mr. Ralph De Stefano, Office of Federal Acquisition Policy, GSA (202) 501-1758.

SUPPLEMENTARY INFORMATION:

A. Purpose

Bid acceptance period is the period of time from receipt of bids that is available to the Government to award the contract. This acceptance period is normally established by the Government. However, the bidder may establish a longer acceptance period than the minimum acceptance period set by the Government by filling in the blank. There are instances when the Government is unable to award a contract within the acceptance period due to unforeseen complications. Rather than incur the costly expense of readvertising, the Government requests

the bidders to extend their bids for a longer period of time.

These data are placed with the respective bids and placed in the contract file to become a matter of record.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average 1 minute per completion, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 3,220; responses per respondent, 40; total annual responses, 128,800; preparation hours per response, .017; and total response burden hours, 2,190.
