**[Docket No. CP96-22-000]****K N Interstate Gas Transmission Co.; Notice of Application**

October 17, 1995.

Take notice that on October 12, 1995, K N Interstate Gas Transmission Co. (K N), P.O. Box 281304, Lakewood, Colorado 80228, filed an application pursuant to Sections 7(c) and 7(b) of the Natural Gas Act, and Part 157 of the Commission's Regulations for: (1) A certificate of public convenience and necessity authorizing the construction and operation of approximately 3.4 miles of 10-inch pipeline, running parallel to its existing 6-inch mainline, beginning approximately 4.6 miles upstream of its Clay Center Compressor Station and ending approximately 1.2 miles upstream of the compressor station, Clay County, Nebraska; and, (2) authorization to abandon in place an

equivalent length of the existing 6-inch mainline, running between the same two points. K N's application is on file with the Commission and open to public inspection.

K N states that the existing pipeline which K N proposes to replace was installed in 1946 pursuant to an order issued on March 30, 1946 in Docket No. G-683.<sup>1</sup> K N states that certain hydrostatic tests on the existing pipeline reveal several leaks, indicating that the condition of the existing pipeline has deteriorated to the point where reliability considerations along justify replacement. Also, K N states it has been asked by K N Energy, Inc. (K N Retail) to increase the amount of gas available to K N Retail at delivery points southeast of the Clay Center Compressor Station; and that, K N Retail will bear the incremental cost associated with the replacement of the 6-inch pipe with 10-inch pipe. K N states that the total projected cost of the project is \$465,000; and that, K N's net cost will be \$300,000.

If the Commission determines that its Statement of Policy issued on May 31, 1995 in Docket No. PL94-4-000 is applicable to this project, K N is requesting a ruling from the Commission that it is entitled to rolled-in pricing of the cost of the proposed facilities. Until it makes its next filing under Section 4 of the Natural Gas Act, K N would charge the firm transportation rates established by the Commission in Docket No. RP94-93-000, *et al.* for transportation of gas through the proposed facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 7, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's

Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matters finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for K N to appear or to be represented at the hearing.

Secretary.
