**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-5319-3]

**Agency Information Collection Activities Up for Renewal**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) listed below is coming up for renewal. Before submitting the renewal package to the Office of Management and Budget (OMB), EPA is soliciting comments on specific aspects of the collection as described below.

**DATES:** Comments must be submitted on or before December 26, 1995.

**ADDRESSES:** U.S. EPA; Office of Wetlands, Oceans and Watersheds; Oceans and Coastal Protection Division (4504F); 401 M Street, SW; Washington, DC 20460.

**FOR FURTHER INFORMATION CONTACT:** Virginia Fox-Norse; phone 202-260-1952; fax 202-260-9960.

**SUPPLEMENTARY INFORMATION:** *Affected entities:* Entities affected by this action are those municipalities which have applied for a renewal of a 301(h) waiver from secondary treatment requirements, or those with a pending 301(h) waiver application.

**Title:** Modification of Secondary Treatment Requirements for Dischargers to Marine Waters; ICR #0138.03; OMB control #2040-0088; expiration date: 12/31/95.

**Abstract:** The 301(h) program involves collecting information from two sources: (1) The municipal wastewater treatment facility, commonly called a publicly owned treatment works (POTW), and (2) the State in which the POTW is located. These sources are seeking a waiver from secondary treatment requirements under the Clean Water Act. Municipalities had the opportunity to apply for a waiver, but that opportunity closed in December, 1982. A POTW seeking to obtain a 301(h) waiver, or reapplying for a waiver, provides application, monitoring, and toxic control program information. The State provides State determination and State certification information. The requirements apply to those who applied to receive this benefit, i.e., a waiver from secondary treatment requirements. Regulations implementing Section 301(h) of the CWA are found at 40 CFR Part 125, Subpart G. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

There are 2 situations where information will be required under the 301(h) program:

**Application Revision Information:** Section 125.59(d) of 40 CFR allow a POTW to revise its application one time only, allowing a tentative decision by EPA to deny the waiver request. In its application revision, the POTW usually corrects deficiencies and changes proposed treatment levels as well as outfall and diffuser locations. The application revision is a voluntary submission for the applicant, and a letter of intent to revise must be submitted within 45 days of EPA's tentative decision (40 CFR 125.59(f)). EPA needs this information to evaluate revised applications and to determine whether the modified discharge will ensure receiving water quality, biological habitats, and beneficial uses of the receiving waters. Section 125.59(e) requires additional information to show compliance with applicable pretreatment requirements under § 125.65, and primary or equivalent treatment requirements under § 125.60.

**Permit Reissuance Information:** As the permits with 301(h) waivers reach their expiration dates, EPA must have
