SUPPLEMENTARY INFORMATION:

I. Background on the Ohio Program

On August 16, 1982, the Secretary of the Interior conditionally approved the Ohio program. Information on the general background of the Ohio program submission, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Ohio program, can be found in the August 10, 1982, Federal Register (47 FR 34688). Subsequent actions concerning the conditions of approval and program amendment are identified at 30 CFR 935.11, 935.12, 935.15, and 935.16.

II. Discussion of the Proposed Amendment

The Ohio Department of Natural Resources, Division of Reclamation (Ohio) submitted proposed Program Amendment Number 66 (PA 66) by letter dated July 3, 1995 (Administrative Record No. OH-2143). In this amendment, Ohio proposed to revise one rule at Ohio Administrative Code (OAC) section 1501:13-4-15 to make the Ohio program as effective as the corresponding Federal regulations concerning the number and frequency of premining water quality samples required for previously mined permit areas. Also as part of PA 66, Ohio proposed to revise two of its Policy/Procedure Directives (PPD's) to reflect the rule changes described above. Ohio proposed to revise PPD Regulatory 93-4 to clarify that pollution abatement areas can include contiguous undisturbed areas which must be affected to improve the baseline pollutional load, to clarify the definition of "no longer exceeding," and to change the name of Ohio's Remining Program contact person.

OSM announced receipt of PA 66 in the July 25, 1995, Federal Register (60 FR 37972), and, in the same document, opened the public comment period and provided an opportunity for a public

hearing on the adequacy of the proposed amendment. The public comment period closed on August 24, 1995.

On September 8, 1995, OSM notified Ohio of its comments about PA 66 (Administrative Record No. OH-2156). OSM and Ohio staff met on September 19, 1995, to discuss those comments. In response to OSM's comments, Ohio submitted Revised Program Amendment Number 66 (PA 66R) by letter dated September 27, 1995 (Administrative Record No. OH-2157). In PA 66R, Ohio is proposing two changes to PPD Regulatory 93-4. Ohio is deleting the earlier proposed provision in the PPD which would have allowed the inclusion of "contiguous undisturbed areas" within pollution abatement areas. Ohio is also revising the PPD to provide that, as part of the demonstration that the untreated pre-existing discharges from the pollution abatement area have not exceeded the modified effluent limitations for the required 12 months, the operator must notify the Division's district office in writing at the beginning of the 12-month period prior to the Phase II bond release.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Ohio satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Ohio program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Columbus Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., E.D.T. on November 1, 1995. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions. The public

hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Any disabled individual who has need for a special accommodation to attend a public hearing should contact the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the Columbus Field Office by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings shall be open to the public and, if possible, notices of the meetings will be posted at the locations listed under **ADDRESSES**. A written summary of each public meeting will be made a part of the Administrative Record.
