SUPPLEMENTARY INFORMATION: In support of the Book Cliffs Initiative, a cooperative management effort, which resulted in the acquisition of 5192 acres by the Bureau of Land Management, and acquisition of Federal Grazing permits by involved parties, additional opportunities for planning have resulted that were not envisioned at the time the Book Cliffs RMP was originally completed (1985). Specifically there is a need to: (1) Determine the kind of public access that will be provided for the lands acquired by the BLM and; (2) determine the appropriate allocation of forage, particularly between livestock and wildlife, for the grazing allotments affected by the purchases.

This Proposed Plan Amendment/ Environmental Assessment may be protested. Protests should be sent to the Director of the Bureau of Land Management using the following protest procedures: (1) The protest must contain the name, mailing address, telephone number and interest of the person filing the protest; (2) a statement of the issue or issues being protested; a statement of the part or parts of the plan amendment being protested; (3) a copy of all documents addressing the issues that were submitted during the planning process by the protesting party; and (4) a concise statement explaining why the State Director decision is believed to be wrong.
