Title: Application for Participation in the National Flood Insurance Program.

Abstract: The National Flood Insurance Program is a self-sustaining, nontaxpayer funded Federal flood insurance program that provides flood insurance to communities which apply for participation and make the commitment to adopt and enforce land use control measures that will guide land development away from flood-prone areas to avoid or reduce future flood damages and losses. The application form enables FEMA/FIA to continue to process new community applications and to more quickly provide flood insurance protection to the residents of the community.
