Federal Register

Vol. 60, No. 208

Friday, October 27, 1995

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 95-081-1]

Availability of Environmental Assessment and Finding of No Significant Impact

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment and finding of no significant impact for the issuance of a U.S. Veterinary Biological Product License. A risk analysis, which forms the basis for the environmental assessment, has led us to conclude that issuance of this license will not have a significant impact on the quality of the human environment. Based on our finding of no significant impact, we have determined that an environmental impact statement need not be prepared.

ADDRESSES: Copies of the environmental assessment and finding of no significant impact may be obtained by writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the docket number of this notice when requesting copies. Copies of the environmental assessment and finding of no significant impact (as well as the risk analysis with confidential business information removed) are also available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect those documents are requested to call ahead on (202) 690-2817 to facilitate entry into the reading room.

FOR FURTHER INFORMATION CONTACT: Dr. Jeanette Greenberg, Technical Writer-

Editor, Veterinary Biologics, BBEP, APHIS, 4700 River Road Unit 148, Riverdale, MD 20737-1237; telephone (301) 734-8400; fax (301) 734-8910.

SUPPLEMENTARY INFORMATION: A veterinary biological product regulated under the Virus-Serum-Toxin Act (21 U.S.C. 151 *et seq.*) must be shown to be pure, safe, potent, and efficacious before a U.S. Veterinary Biological Product License may be issued.

In determining whether to issue a license for the veterinary biological product referenced in this notice, the Animal and Plant Health Inspection Service (APHIS) conducted a risk analysis to assess the product's potential effect on the safety of animals, public health, and the environment. Based on that risk analysis, APHIS has prepared an environmental assessment. APHIS has concluded that issuance of a U.S. Veterinary Biological Product License for the veterinary biological product referenced in this notice will not significantly affect the quality of the human environment. Based on the finding of no significant impact, we have determined that there is no need to prepare an environmental impact statement.

An environmental assessment and finding of no significant impact have been prepared for issuance of a U.S. Veterinary Biological Product License for the following veterinary biological product: Newcastle Disease-Fowl Pox Vaccine, Live Fowl Pox Vector; Code 17C1.R0; to be issued to Select Laboratories, Inc., Establishment License No. 279.

The environmental assessment and finding of no significant impact have been prepared in accordance with: (1) the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*), (2) Regulations of the Council on Environmental Quality for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), (3) USDA Regulations Implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372; 60 FR 6000-6005, February 1, 1995).

Done in Washington, DC, this 23rd day of October 1995.

Terry I. Medley,

Administrator, Animal and Plant Health Inspection Service.
