information which MSHA should review and evaluate. This new information is relevant to MSHA’s proposed rule and the Agency’s technical assessment of other flammability test data. Also, MSHA has placed the Agency’s response to questions from certain commenters in the rulemaking record for public review.

DATES: Written material and comments must be submitted by December 15, 1995.

ADDRESSES: Send written comments to MSHA; Office of Standards, Regulations, and Variances; 4015 Wilson Boulevard, Room 631; Arlington, VA 22203. Commenters are encouraged to submit comments on a computer disk along with a hard copy.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Director; Office of Standards, Regulations, and Variances; 703–235–1910.

SUPPLEMENTARY INFORMATION:

I. Background

On December 24, 1992, MSHA published a proposed rule (57 FR 61524) to implement new procedures and requirements for testing and approval of flame-resistant conveyor belts and requirements for their use in underground coal mines. The proposed revision would replace the existing flame test for acceptance of flame-resistant belts specified in Agency regulations. The comment period on the proposed rule closed on March 26, 1993. Several commenters requested that the Agency hold a public hearing on its proposal. The comment period on the proposed rule was reopened until April 21, 1995, and on May 2, 1995, MSHA held a public hearing in Washington, PA (60 FR 16589, March 31, 1995). The post-hearing comment period closed on June 5, 1995.

II. Issues

Following the close of the post-hearing comment period, a manufacturer indicated that additional flammability testing of conveyor belts was scheduled using the Factory Mutual conveyor belt flammability test (FM test) and invited MSHA to witness that testing. To avoid participation in testing where all parties to the rulemaking were not invited, and because the record was closed, MSHA neither witnessed these tests nor received the results of this testing. Another manufacturer also requested that MSHA accept additional flammability test data generated from the FM test that were not available during the comment period.

Also, in the comments submitted during the post-hearing comment period, the United Mine Workers of America (UMWA) and the Bituminous Coal Operators’ Association (BCOA) jointly submitted 10 questions to MSHA. MSHA’s response is being placed in the rulemaking record and is available to the public from MSHA, Office of Standards, Regulations, and Variances.

MSHA is reopening the record for 45 days to provide all interested parties an opportunity to review the record and to submit additional data, test results, and technical information. MSHA encourages all interested parties to submit comments prior to the close of the record.

Dated: October 18, 1995.

J. Davitt McAteer,
Assistant Secretary for Mine Safety and Health.

BILLING CODE 4510–43–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FR–5296–6]

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of Connecticut

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Connecticut to redesignate the Hartford/New Britain/Middletown area from nonattainment in attainment for carbon monoxide (CO). Under the Clean Air Act as amended in 1990 (CAA), designations can be revised if sufficient data is available to warrant such revisions.

In the Final Rules Section of this Federal Register, EPA is approving the CO emissions inventory for both areas and the oxygcnated fuels program only as it applies to the Hartford/New Britain/Middletown nonattainment area as a direct final rule. In addition, EPA is also approving Connecticut’s redesignation, as a direct final rule, without prior proposal. A detailed rationale for the action is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments must be submitted by November 30, 1995.

ADDRESSES: Written comments should be sent to Damien Houlihan, at the EPA Regional Office listed below. Copies of the redesignation request and the State of Connecticut’s submittal are available for public review during normal business hours at the addresses listed below.

Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, and;

Environmental Protection Agency, One Congress Street, Boston, MA 02203.

FOR FURTHER INFORMATION CONTACT: Damien Houlihan of the EPA Region I Air, Pesticides and Toxics Management Division at (617) 565–3266.

[CA 162–1–7250b; FRL–5321–2]

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, South Coast Air Quality Management District and Santa Barbara County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

[FR Doc. 95–26962 Filed 10–30–95; 8:45 am]
BILLING CODE 6560–50–P

40 CFR Part 52

[CA 162–1–7250b; FRL–5321–2]
SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP) which concerns the control of volatile organic compound (VOC) emissions from graphic arts and wood products coating operations.

The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this Federal Register, the EPA is approving the state’s SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by November 30, 1995.

ADDRESSES: Written comments on this action should be addressed to: Daniel A. Meer, Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Copies of the rule revisions and EPA’s evaluation report of each rule are available for public inspection at EPA’s Region 9 office during normal business hours. Copies of the submitted rules will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.
