

### Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a federal mandate that may result in estimated costs to state, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. EPA has determined that the approval proposed in this document does not include such a federal mandate, as this proposed federal action would approve pre-existing requirements under state or local law, and would impose no new federal requirements. Accordingly, no additional costs to state, local, or tribal governments, or to the private sector, will result from this action.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Maryland for the purpose of approving a maintenance plan and a request to redesignate the Baltimore carbon monoxide nonattainment area, from nonattainment to attainment for CO. A detailed rationale for the

approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
