National Institutes of Health; Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that by Petition dated October 10, 1995, Dr. Maryann Wenli Ma and Dr. Bill Wenling Zheng (Petitioners) have requested that the NRC take immediate action with regard to the National Institutes of Health (NIH). The Petitioners request that materials license No. 19-00296-10 held by NIH be suspended or revoked pending resolution of the issues raised in the Petition, and that other appropriate enforcement action be taken against NIH.

As a basis for their request, the Petitioners assert that NIH has willfully, recklessly, or deliberately committed numerous violations of 10 CFR Part 20. Broadly stated, the Petitioners assert that, as a result of NIH's failure to control and secure radioactive materials, maintain an effective bioassay program and otherwise adhere to the requirements of 10 CFR Part 20, Dr. Ma was contaminated with phosphorous-32 (P-32) resulting in both her and her unborn fetus receiving intakes of radioactive material significantly in excess of regulatory limits; that additional NIH employees also were internally contaminated with P-32; and that NIH failed to take proper actions to assess accurately the level of Dr. Ma's internal contamination or provide

appropriate medical care and follow-up treatment.

The request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Material Safety and Safeguards. By letter dated October 30, 1995, the Petitioners' request that license No. 19-00296-10 held by NIH be suspended or revoked pending resolution of the issues discussed in the Petition was denied. Action will be taken on the remaining aspects of the petition, pursuant to Section 2.206, within a reasonable time.

A copy of the Petition is available for inspection at the Commission's Public Document Room at 2120 L Street, N.W., Washington, D.C. 20555.

Dated at Rockville, Maryland this 30th day of October 1995.

For the Nuclear Regulatory Commission.
Carl J. Paperiello,
Director, Office of Nuclear Material Safety and Safeguards.
