**AGENCY:** Office of Strategic Industries and Economic Security, Bureau of Export Administration, U.S. Department of Commerce.

**ACTION:** Notice of request for public comments on the potential market impact of proposed disposals of excess commodities from the National Defense Stockpile. This action concerns the Department of Defense proposed disposal plans under Fiscal Year (FY) 1997 Annual Materials Plan (AMP) and revisions to the FY 1996 AMP.

**SUMMARY:** This notice is to advise the public that the interagency National Defense Stockpile Market Impact Committee is seeking public comment on the market impact of proposed disposals of excess materials currently held in the National Defense Stockpile.

**DATES:** Comments must be received by December 7, 1995.

**ADDRESSES:** Written comments (10 copies) should be sent to Richard V. Meyers, Co-Chair, Stockpile Market Impact Committee, Office of Strategic Industries and Economic Security, Room 3878, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Richard V. Meyers, Office of Strategic Industries and Economic Security, U.S. Department of Commerce, (202) 482-3634; or Stephen G. Brundage, Office of International Energy and Commodities Policy, U.S. Department of State, (202) 647-2871; co-chairs of the National Defense Stockpile Market Impact Committee.

**SUPPLEMENTARY INFORMATION:** Under the authority of the Strategic and Critical Materials Stock Piling Act of 1979, as amended, (50 U.S.C. 98 *et seq.*), the Department of Defense (as National Defense Stockpile Manager) maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 3314 of the Fiscal Year (FY) 1993 National Defense Authorization Act (NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile \* \* \*." The Committee includes representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, Treasury and the Federal Emergency Management Agency and is co-chaired by the Departments of Commerce and State. The NDAA for Fiscal Year 1993 directs the Committee to "consult from time to time with representatives of producers, processors

and consumers of the types of materials stored in the stockpile."

The Department of Defense, Defense National Stockpile Center (DNSC), has submitted to the Committee for its consideration and recommendations the proposed FY 1997 Annual Materials Plan (AMP) and revisions to the FY 1996 AMP for the disposal of the listed Stockpile materials. These AMP documents are reprinted below.

Following Committee review, the AMP documents with Committee recommendations are submitted to the Congress by DNSC for approval.

Included in the proposed FY 1997 and revisions to the FY 1996 AMP below, are the proposed maximum disposal quantities for each listed material. Please note that these quantities are not sales target disposal quantities. They are only a statement of

the proposed maximum disposal quantity of each material that can be sold in a particular fiscal year. The quantity of each material that will actually be offered for sale will depend on the market for the material at the time of the offering as well as on the quantity of material approved for disposal by the Congress.
