SUPPLEMENTARY INFORMATION:

I. Abstract

One objective of the 2000 decennial census calls for the Census Bureau to make greater use of other agencies' administrative record files to reduce cost, respondent burden, and the differential in the results among various components of the population. The Administrative Records Notifications Evaluation is a test to measure mail and item response rates to census forms containing different administrative record use notifications. The test also will measure how requests for Social Security numbers will affect mail return and item response rates.

II. Method of Collection

For this one-time survey, census questionnaires will be mailed to the sampled households and returned in postage-paid envelopes. We also plan to mail pre-notice letters, reminder cards, and replacement questionnaires (the only means used for following up on nonresponding households). There will be no telephone or field enumeration follow-up.

OMB Number: Not available.
