

[Docket No. GT96-16-001]**Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff**

November 6, 1995.

Take notice that on October 31, 1995, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain revised tariff sheets to its FERC Gas Tariff, Third Revised Volume No. 1 and Original Volume No. 2, which tariff sheets are included in Appendix A attached to the filing. The proposed effective date of such tariff sheets is November 1, 1995.

As background to the instant filing, on October 23, 1995, Transco filed in Docket No. GT96-16-000 (October 23 Filing) to convert the incremental Southern Expansion Project (SEP) seasonal firm transportation service provided to the City of Fountain Inn, South Carolina and the City of Kings Mountain, North Carolina (hereinafter referred to as the "converting SEP shippers") pursuant to Section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, to firm transportation under Rate Schedule FT pursuant to Transco's blanket transportation certificate and Part 284 of the Commission's regulations. As a part of the conversion process, Transco and the converting SEP shippers expressly agreed that the converted SEP service would be billed on a seasonal basis corresponding to the period during which Transco provides SEP service (i.e. November through March) as opposed to the current annual billing cycle. Such conversions were proposed to be effective December 1, 1995.

Subsequent to the October 23 Filing, Transco has determined that a change from the current annual billing cycle to a seasonal billing cycle requires that the proposed conversions be made effective November 1, 1995, the beginning of the winter season, rather than December 1, 1995. Making the conversions effective November 1, 1995, will allow Transco and the converting SEP shippers to remain economically indifferent to moving from an annual billing cycle to a seasonal billing cycle, consistent with the parties' agreement on the conversion process. To the extent the proposed SEP conversions were to be made effective subsequent to November 1, Transco would incur a revenue shortfall for the time period during which it was to bill converted SEP service based on annual rates. In recognition of this unintended result, Transco and the converting SEP shippers have agreed to effectuate the conversions proposed in Docket No. GT96-16-000 effective November 1,

1995, in lieu of December 1, 1995. Therefore, Transco requests that the Commission accept the tariff sheets included in Appendix A attached to the subject filing, in lieu of those filed in Docket No. GT96-16-000.

Transco states that copies of the filing are being mailed to the converting SEP shippers and interested State Commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before November 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
