Total	1,328,627.60

By the terms of the proposed AOC, these PRPs will together pay \$1,328,627.60 to the Hazardous Substance Superfund. This payment represents approximately 22% of the total anticipated costs for the Site upon which this settlement is based.

In exchange for payment, EPA will provide the settling parties with a limited covenant not to sue for liability under sections 106 and 107(a) of CERCLA, including liability for EPA's past costs, the cost of the remedy, and future EPA oversight costs, and under section 7003 of the Solid Waste Disposal Act, as amended (also known as the Resource Conservation and Recovery Act).

The amount that each individual PRP will pay, as shown above, reflects the number of drums that each PRP sent to the Site that had hazardous materials in them. The cost per drum is \$3.24. The total amount of settlement dollars owed by each party to the settlement was arrived at by multiplying the price per drum by the number of drums a party sent to the Site (Base Amount) plus a premium payment of 30% of the Base Amount.

For a period of thirty (30) days from the date of this publication, the public may submit comments to EPA relating to this proposed *de minimis* settlement.

A copy of the proposed AOC may be obtained from Maureen O'Reilly (8HWM-ER), U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, Colorado 80202-2405, (303) 294-7505. Additional background information relating to the *de minimis* settlement is available for review at the Superfund Records Center at the above address.

It Is So Agreed:

Dated: November 8, 1995.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Approved by Office of Management and Budget

November 3, 1995.
 The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection pursuant to the Paperwork Reduction Act of 1980, Pub. L. 96-511. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0646.

Expiration Date: 09/30/98.

Title: Policies and Rules Concerning Unauthorized Changes of Consumers' Long Distance Carriers, CC Docket No. 94-129.

Estimated Annual Burden: 1000 total annual hours; average 2 hours per respondent; 500 respondents.

Description: Interexchange carriers are required to provide consumers with letters of agency that are physically separate or severable from any inducements or promotional materials. The letter of agency must be written in clear and unambiguous language and printed in a font whose size and style are comparable to the inducement.

BILLING CODE 6712-01-F

**Notice of Public Information
Collections Being Reviewed by the
Federal Communications Commission,
Comments Requested**

November 6, 1995.

SUMMARY: The Federal Communications, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commissions burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before January 16, 1996. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESS: Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: None.

Title: Telecommunications Access Provider Survey.

Form No.: None.

Type of Review: Proposed New Collection.

Respondents: Businesses or other for profit.

Number of Respondents: 1600.

Estimated Time Per Response: 24 hours.

Total Annual Burden: 36,500.

Needs and Uses: The Commission is soliciting public comment on its

proposed Telecommunications Access Provider Survey which would be filed by all access providers. The information is needed to evaluate competition in local telecommunications markets. The information will be used to estimate market shares, growth in competitive offerings, and changes in markets due to changes in FCC regulations. The total annual burden estimated reflects that access providers will submit varying information.

Federal Communications Commission.

William F. Caton,
Acting Secretary.

BILLING CODE 6712-01-F

Public Safety Wireless Advisory Committee; Technology Subcommittee Meeting

AGENCIES: The National Telecommunications and Information Administration (NTIA), Larry Irving, Assistant Secretary for Communications and Information, and the Federal Communications Commission, Reed E. Hundt, Chairman.

ACTION: Notice of next meeting of the Technology Subcommittee and request for presentations by interested individuals addressing technical issues of spectrum use by public safety agencies.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, this notice advises interested persons that the next meeting of the Technology Subcommittee will afford an opportunity for technical presentations to be made and the procedures for interested persons seeking to appear before the Subcommittee. The NTIA and the FCC established a Public Safety Wireless Advisory Committee and subcommittees to prepare a final report to advise the NTIA and the FCC on operational, technical and spectrum requirements of Federal, state and local Public Safety entities through the year 2010. All interested parties are invited to attend the next round of meetings of the Subcommittee.

DATES: December 13, 1995; Commencing at 1:00 p.m.

ADDRESSES: Commodity Futures Trading Commission, 3 Lafayette Centre, 1155 21st Street, NW., 1st Floor Hearing Room 1000, Washington, DC 20581.

SUPPLEMENTARY INFORMATION: The Technology Subcommittee seeks presentations addressing communications technologies that embrace significant and evolutionary

improvements in radio bandwidth and spectrum efficiency for public safety agencies. The presentation should be an overview of technical capabilities able to achieve more efficient and effective spectrum use through the year 2010. The range of present and emerging technologies should be addressed, including broadband and narrowband alternatives and capabilities.

The Subcommittee will evaluate the information submitted to advise the steering committee of technologies that can best serve public safety's present and future requirements. The Subcommittee seeks to establish a record of the technical aspects of spectrum use and the impact for public safety purposes. The presentations should be premised on affording public safety agencies wireless capabilities that provide high information transfer rates supporting multimedia requirements, while also meeting historic public safety requirements in an environment that agencies are able to afford. The range of public safety agencies, from high density urban to low density rural operations, and the need for interoperable and compatible capability, are factors to be considered.

Information is sought from educational and research institutions, as well as government agencies, with expertise in spectrum technology, government and private organizations who procure and operate radio systems, manufacturers and service providers of radio technology, and other interested parties who can assist the Advisory Committee in examining the technical aspects and capabilities of the spectrum. The Advisory Committee will evaluate how best spectrum should be allocated for public safety uses, and will include examining commercial alternatives.

The presentations will be made at the December 13, 1995, meeting of the Technology Subcommittee. The oral presentation should be no more than 30 minutes in length and accompanied by a written submission that will be placed in the record of the Advisory Committee's proceedings. Those seeking to provide an oral presentation should notify Joy Alford at 202-418-0680 (telephone), 202-418-2643 (fax), jalford@fcc.gov (email) by December 1, 1995, to schedule a time at the December 13, 1995, meeting to make the presentation as well as to advise of any audio visual needs accompanying the presentation. Written submissions not accompanied by oral presentations will be accepted and should be submitted no later than December 8, 1995, to Joy Alford at 2025 M St., NW.; Room 8010; Washington, DC 20554 (mailing address). Any submission received by
