Need and Uses: This information collection will be a case controlled study to describe and elucidate the causes of Gulf War Syndrome.

Participants will be 2,000 veterans of the Persian Gulf War who currently reside in Oregon and Washington.

Current Circumstances: The overall goal of this epidemiologic survey and case control study is to determine whether the occurrence of unexplained symptoms referred to as "Gulf War Syndrome" is associated with any environmental exposure(s) encountered while in the Persian Gulf War theater. Information collection is necessary to document the presence, onset, duration and severity of symptoms as well as the frequency and type of environmental exposures experienced. The study will be conducted in two phases: Phase I consists of epidemiologic survey activities designed to locate a sample of Persian Gulf War veterans and identify those who may be experiencing unexplained symptoms (potential cases) and those who report no symptoms (potential controls). Phase II will consist of a case control study involving clinical examination and testing activities. Only forms for Phase I survey activities are submitted here; protocols and forms for the Phase II case control will be submitted under separate cover when fully developed.

This request for comment is being made pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13; 44 U.S.C. 3506(c)(2)(A)). Comments should address the accuracy of the burden estimates and ways to minimize the burden including the use of automated collection techniques or the use of other forms of information technology, as well as other relevant aspects of the information collection.

DATES: Written comments and recommendations on the proposal for

the collection of information should be received on or before January 16, 1996.

ADDRESSES: Direct all written comments to Wayne Kenney, National Cemetery Area Office (787), Department of Veterans Affairs, P.O. Box 11720, 5000 Wissahickon Avenue, Philadelphia, PA 19101. All comments will become a matter of public record and will be summarized in the NCS request for Office of Management and Budget (OMB) approval. In this document NCS is soliciting comments concerning the following information collection:

OMB Control Number: 2900-0546.

Title and Form Number: Adjacent Gravesite Set-Aside Survey (1 Year), VA Form Letter 40-40.

Type of Review: Extension of a currently approved collection.

Need and Uses: The information requested by the form letter is needed to determine if individuals holding gravesite set-asides in national cemeteries wish to retain the set-aside and whether their eligibility for the set-aside has been affected.

Current Actions: In 1982, the Adjacent Gravesite Set-Aside Program was established which allows cemeteries to administer gravesites set-aside at cemeteries where 4'x8' single-depth interments are authorized. This program permits an adjacent gravesite being set aside at the time of the first interment of a veteran—s family for its future use. An automated Adjacent Gravesite Set-Aside Survey System (AGSSS) was developed and managed by the staff at Philadelphia National Cemetery Area Office. A database was formulated to record the names of the holders and contain information about the particular adjacent gravesite set-aside (AGS). Computer generated form letters are sent to AGS holders annually to ascertain their wish to retain their set-aside, or wish to relinquish it. If a holder cancels his/her set-aside or becomes ineligible, the gravesite set-aside is then relinquished, and will be used for another eligible veteran and/or dependent. Upon return of the form letter, action is taken by the national cemetery staff to update the database.

Affected Public: Individuals or households.

Estimated Annual Burden: 6,334 hours.

Estimated Average Burden Per Respondent: 10 minutes.

Frequency of Response: Annually.

Estimated Number of Respondents: 38,000.
