Room 4037, Washington, DC 20405. Please cite OMB Control No. 9000-0060, Accident Prevention Plans and Recordkeeping, in all correspondence.

FOR FURTHER INFORMATION CONTACT:

Mr. Jack O'Neill, Office of Federal Acquisition Policy, GSA (202) 501-3856.

SUPPLEMENTARY INFORMATION:

A. Purpose

The clause "Accident Prevention" (48 CFR 52.236-13) requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death, traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by OSHA (OMB Control No. 1220-0029). The Federal Acquisition Regulation requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, the contractor must submit a written proposal for implementation of the clause. The Accident Prevention Plan, for projects that are hazardous or of long duration, is analyzed by the Contracting Officer along with the agency safety representatives to determine if the proposed plan will meet the requirement of the safety regulations and applicable statutes. The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The Accident Prevention Plan is placed in the contract file for reference.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average 2 hours per completion, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 2,106; responses per respondent, 2; total annual responses, 4,212; preparation hours per response, 2; and total response burden hours, 8,424.

Dated: November 7, 1995.
