

exemption. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar, but the proposed action would reduce occupational exposure at CNS.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Cooper Nuclear Station, dated February 1973.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on October 19, 1995, the staff consulted with the Nebraska State official, Ms. Julia Schmidt, Division of Radiological Health, Nebraska Department of Health, regarding the environmental impact of the proposed action. The State official had no comments.

#### *Finding of No Significant Impact*

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this action, see the licensee's request for an exemption dated May 13, 1994, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW, Washington, DC, and at the local public document room located at the Auburn Public Library, 118 15th Street, Auburn, Nebraska 68305.

Dated at Rockville, Maryland, this 6th day of November 1995.

For the Nuclear Regulatory Commission.

#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

Under Federal contracts requiring that equipment (e.g., pumps, fans, generators, chillers, etc.) be installed in a project, the Government must determine that the equipment meets the contract requirements. Therefore, the contractor must submit sufficient data on the particular equipment to allow the Government to analyze the item.

The Government uses the submitted data to determine whether or not the equipment meets the contract requirements in the categories of performance, construction, and durability. This data is placed in the contract file and used during the inspection of the equipment when it arrives on the project and when it is made operable.

##### B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average .25 hours per completion, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 3,160; responses per respondent, 1.5; total annual responses, 4,740; preparation hours per response, .25; and total response burden hours, 1,185.

Dated: November 7, 1995.

Beverly Fayson,  
FAR Secretariat.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-325 and 50-324]

### Carolina Power & Light Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Carolina Power & Light Company (the licensee) to withdraw its June 17, 1994, application for proposed amendment to Facility Operating License Nos. 50-325 and 50-324 for the Brunswick Steam Electric Plant, Units 1 and 2, located in Brunswick County, North Carolina.

The proposed amendment would have removed the pressure-temperature curves and vessel surveillance capsule withdrawal schedule from the Technical Specifications.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on July 20, 1994 (59 FR 37065). However, by letter dated October 10, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 17, 1994, and the licensee's letter dated October 10, 1995, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC 20555, and at the University of North Carolina at Wilmington, William Madison Randall Library, 601 S. College Road, Wilmington, North Carolina 28403-3297.

Dated at Rockville, Maryland, this 3rd day of November 1995.

For the Nuclear Regulatory Commission.

David C. Trimble,
