

The joint EIS assesses the potential environmental effects of the construction and operation of the proposed EcoEléctrica LNG Import Terminal and Cogeneration Project, which includes the following facilities:

- A marine terminal for unloading liquefied natural gas (LNG) tankers, two 1,000,000-barrel LNG storage tanks, an LNG vaporization system, and a natural gas accumulator pipeline.

- A 461-megawatt electric cogeneration facility that would use the vaporized LNG as a fuel source. The power plant facility would consist of two gas turbines fueled by natural gas and one steam generator. The gas turbines could also use propane (LPG) as a secondary fuel and number 2 oil as an emergency fuel.

- A desalination facility that could generate up to 4,000,000 gallons of potable water per day. The multistage flash system would use the surplus heat from power production to produce freshwater. The power plant would require up to 1,000,000 gallons per day for operating needs. The surplus would be sold for public use.

- Other facilities necessary for operation of the cogeneration facility include a 2.3-mile-long, 230-kilovolt transmission line connecting the plant substation to an existing Puerto Rico Electric Power Authority (PREPA) substation; a 1.1-mile-long, 8-inch-diameter natural gas pipeline to the PREPA power plant; a 3.5-mile-long, 10-inch-diameter pipeline to supply LPG to the cogeneration facility; and a 1.2-mile-long, 8-inch-diameter water pipeline to connect to an existing offsite water supply or to outside delivery systems.

The joint EIS has been placed in the public files of the FERC and is available for public inspection at:

Public Reference and Files Maintenance Branch, 888 First Street, NE., Washington, DC 20426-1119, (202) 208-1371

Puerto Rico Planning Board, P.O. Box 41119, Santurce, Puerto Rico 00940, (809) 727-4444

Copies have been mailed to Federal, commonwealth and local agencies, public interest groups, interested individuals, public libraries, newspapers, and parties to this proceeding.

A limited number of copies of the joint EIS are available from either:

Mr. Chris Zerby, Federal Energy Regulatory Commission, FERC EIS Project Manager, Office of Pipeline Regulation, Room 7312, 825 North Capitol Street, NE., Washington, DC 20426, (202) 208-0111.

Mrs. María Gordillo, Puerto Rico Planning Board, PRPB EIS Project

Manager, P.O. Box 41119, Santurce, Puerto Rico 00940-1119, (809) 727-4444

Any person wishing to comment on the joint EIS may do so. Written comments must reference FERC Docket No. CP95-35-000 and PRPB Docket No. 94-62-1219-JPM. Comments should be addressed to:

Secretary of the Commission, 888 First Street, NE., Washington, DC 20426
Luis Frias, Secretary, Secretary PRPB, P.O. Box 41119, Santurce, P.R. 00940-1119

Comments should be filed as soon as possible, but must be received no later than December 26, 1995,¹ to ensure consideration prior to a FERC or PRPB decision on this proposal. A copy of any comments should also be sent to Mr. Chris Zerby, FERC EIS Project Manager, or Mrs. María Gordillo, PRPB EIS Project Manager at the above addresses.

Comments will be considered by the FERC and PRPB but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the FERC's Rules of Practice and Procedure (18 CFR 385.214).

In addition to asking for written comments, we invite you to attend any of the joint public meetings the FERC and PRPB will conduct to solicit comments on the draft EIS. The locations and times for these meetings are listed below.

The public meetings will be designed to give you more detailed information and another opportunity to offer your comments on the proposed project. Those wanting to speak at the meetings can call the EIS Project Manager to preregister their names on the speaker list. Those people on the speaker list before the date of the meeting will be allowed to speak first. A second speaker list will be developed at each meeting. Priority will be given to people representing groups. A transcript of each meeting will be made so that your comments will be accurately recorded. This transcript will be available in both Spanish and English.

[Docket No. RP96-36-000]

CNG Transmission Corporation; Notice of Termination of Gathering Service

November 9, 1995.

Take notice that on November 2, 1995, CNG Transmission Corporation (CNG) filed pursuant to Section 4 of the Natural Gas Act and compliance with the Commission's direction in Docket No. CP93-200, a notice to terminate gathering service of uncertificated gathering lines on or after 30 days from the date of the filing. The uncertificated gathering lines to be abandoned in place or removed are listed in Appendix A attached to the filing.

It is asserted that no contract for transportation service with CNG would be canceled or terminated. The lines being abandoned solely served wells owned by CNG which are being plugged and abandoned. It is alleged that no default contract is being submitted because CNG believes that the nature of the abandonment of the gathering lines is one that does not require the use of a default contract. The uncertificated gathering lines are located in Elk, Clearfield, and Cameron Counties, Pennsylvania.

CNG requests that the order issued this proceeding, permit such termination of service and such waivers of the Commission's rules and regulations for the limited purpose of terminating service on the specified uncertificated gathering lines.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 or 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before November 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Secretary.
