

DATES: Comments concerning the study of these rivers should be received by May 31, 1996. Send written comments and suggestions concerning the management of this river to Rick D. Cables, Forest Supervisor, Pike and San Isabel National Forests, Cimarron and Comanche National Grasslands, 1920 Valley Drive, Pueblo, Colorado 81008.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and draft LEIS should be directed to Steve Davis, Wild and Scenic River Planning Team Leader, Pike and San Isabel National Forests, Cimarron and Comanche National Grasslands, 1920 Valley Drive, Pueblo, Colorado 81008; telephone (719) 585-3714.

SUPPLEMENTARY INFORMATION: The Forest Service is studying these rivers as required under Section 5(d)(1) of the Wild and Scenic Rivers Act of 1968 (Pub. L. 90-542, 82 Stat. 906, as amended; 16 U.S.C. 1271-1287). Section 5(d)(1) allows for the study of new potential wild and scenic rivers not designated under Section 3(a) or designated for study under Section 5(a) of the Act. Section 5(d)(1) states "In all planning for the use and development of water and related land resources, consideration shall be given by all Federal agencies involved to potential national, wild, scenic, and recreational river areas". The study will consider a 22.8-mile segment of the South Platte River from below Elevenmile Dam to the high water line of Cheeseman Reservoir, a 23-mile segment of the South Platte River from below Cheeseman Dam to the high water line of Strontia Springs Reservoir, and a 23.1-mile segment of the North Fork of the South Platte River from the upstream boundary of the Berger property, near Insmont, downstream to its confluence with the South Platte River, to include lands within 1/4 mile from each stream bank. Preliminary alternatives include a wild and scenic designation for each segment for the length of the proposal, and an unsuitable for designation alternative. Other appropriate alternatives may be considered.

Rick D. Cables, Forest Supervisor, Pike and San Isabel National Forests, Comanche and Cimarron National Grasslands is the responsible official for preparing the suitability study. Dan Glickman, Secretary of Agriculture, U.S. Department of Agriculture, Room 200-A, Administration Building, Washington, DC 20250, is the responsible official for recommendations for wild and scenic river designation.

Public participation is especially important at several points in the study

process. The first point is the scoping process (40 CFR 1501.7). The Forest Service is seeking information comments, and assistance from Federal, State, and local agencies, individuals and organizations who may be interested in or affected by the proposed action. The public input will be used in preparation of the draft LEIS.

The draft LEIS is expected to be filed with the Environmental Protection Agency (EPA), and available for public review by October, 1996. At that time, the EPA will publish a notice of availability of the draft LEIS in the Federal Register.

The comment period on the draft LEIS will be 90 days from the date the EPA's notice of availability appears in the Federal Register. It is very important that those interested in the management of this river participate at that time. To be the most helpful, comments on the draft LEIS should be as specific as possible, and may address the adequacy of the statement or the merits of the alternatives discussed (see The Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act, 40 CFR 1503.3). In addition, Federal court decisions have established that reviewers of draft LEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft LEIS stage but that are not raised until after completion of the final LEIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1988) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). The reason for this is to ensure that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

After the comment period ends on the draft LEIS, comments will be analyzed and considered by the Forest Service in preparing the final LEIS. In the final LEIS, the Forest Service will respond to comments received (40 CFR 1503.4). The final LEIS is scheduled to be completed by the end of October 1997. The Secretary will consider the comments, responses, and consequences discussed in the LEIS, applicable laws, regulations, and policies in making a recommendation to the President regarding the suitability of these river

segments for inclusion into the National Wild and Scenic Rivers System. The final decision on inclusion of a river in the National Wild and Scenic Rivers System rests with the Congress of the United States.

DEPARTMENT OF COMMERCE

Bureau of the Census

1996 Integrated Coverage Measurement (ICM) Address Listing Activities

AGENCY: Bureau of the Census, Commerce.

ACTION: Proposed agency information collection activity; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before January 16, 1996.

ADDRESSES: Direct all written comments to Gerald Taché, Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to David C. Whitford, Bureau of the Census, Room 3771, Washington, DC 20233, (301) 457-4035.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of the Census developed the ICM approach for measuring coverage during the decennial census. The Independent Listing will obtain a complete housing unit inventory of all addresses within the 1996 ICM test area just before the 1996 test census commences. There will be two Independent Listing forms, DT-1302 and DT-1302A. The DT-1302 will contain experimental questions designed to enhance our address listing procedures. We will compare the results

using Form DT-1302 with those from a control listing form that did not contain the experimental questions, Form DT-1302A, to see if the experimental questions improved our coverage of addresses. For quality assurance purposes, a sample of each block will be advance listed (by observation) in the Quality Assurance Advance Listing Book, DT-1314. This quality assurance listing will not impose any respondent burden.

The listings will be matched to the census list of addresses; the unmatched cases will be sent to the field for reconciliation using the Housing Unit Follow-up Form, DT-1377. For quality assurance purposes, a sample of the follow-up cases will be verified to ensure that the follow-up enumerators visit the block clusters, resolve the cases, and correctly followed procedures. The resultant address listing will be used in the next phase of the ICM, the ICM Person Interview.

As part of our evaluation requirements, we will perform an independent rematch and reconciliation of a sample of the housing unit addresses. The quality assurance and evaluation operations will be conducted using the same form, DT-1377.
