#### Defense Federal Acquisition Regulation Supplement Specifications and Standards

**AGENCY:** Department of Defense (DoD).

**ACTION:** Proposed rule; withdrawal.

**SUMMARY:** The Department of Defense (DoD) has decided to withdraw a proposed rule published on December 23, 1994 (59 FR 66287). The rule proposed DFARS revisions to reflect DoD's commitment to minimizing the use of military and Federal specifications and standards and maximizing the use of performance specifications and non-Government standards. The DoD has determined that changes to DoD Instruction 5000.2 would result in more effective implementation of those commitments. Therefore, the proposed DFARS rule is withdrawn.

#### SUPPLEMENTARY INFORMATION:

##### A. Background

The Federal Acquisition Streamlining Act of 1994, Pub. L. 103-355 (FASA), provides authorities that streamline the acquisition process and minimize burdensome government-unique requirements. Major changes in the acquisition process as a result of FASA implementation include changes in the areas of Commercial Item Acquisition, Simplified Acquisition Procedures, the Truth in Negotiations Act, and introduction of the Federal Acquisition Computer Network (FACNET).

At the request of the Administrator, Office of Federal Procurement Policy, the DoD Past Performance Coordinating Council (PPCC) was tasked by the FASA DFARS Implementation Manager to develop DFARS coverage for implementing Section 1091 of FASA. There were no associated FAR changes that were published as a FASA-related rule, as the final FAR rule published in the Federal Register on March 31, 1995 (60 FR 16718) already complied with FASA requirements.

The following changes to DFARS were developed by the PPCC to implement OFPP Policy Letter 92-5, Past Performance Information, and Section 1091 of FASA:
