Because operators will be permitted to estimate cost changes that will occur in the 12 months following the rate filing, we expect that this methodology will limit delays in recovering costs that operators may experience under the current system. Any incurred cost that is underestimated or overestimated may be accrued with interest and added to rates at a later time. If actual and projected costs are different during the rate year, a "true up" mechanism is available to correct estimated costs with actual cost changes. The "true up" requires
