RIN 1545–AE86

Definition of an S Corporation; Correction

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Correction to final regulations.

SUMMARY: This document contains a correction to final regulations [TD 8600] which were published in the Federal Register for Friday, July 21, 1995 (60 FR 37578). The final regulations relate to the definition of an S corporation.

FOR FURTHER INFORMATION CONTACT: Laura Howell, (202) 622–3060 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of this correction are under section 1361 of the Internal Revenue Code.

Need for Correction

As published, TD 8600 contains a typographical error that is in need of correction.

Correction of Publication

Accordingly, the publication of the final regulations which is the subject of FR Doc. 95–17914, is corrected as follows:

§ 1.1361–1 [Corrected]

On page 37587, column 1, § 1.1361–1 (which was corrected at 60 FR 4997, Sept. 27, 1995), paragraph (k)(1), paragraph (ii) of Example 1, in the last sentence of the paragraph, the date “July 27, 1997” is corrected to read “July 28, 1997”.

Cynthia E. Grigsby,
Chief, Regulations Unit, Assistant Chief Counsel (Corporate).

30 CFR Part 916

[SPATS No. KS–016–FOR]

Kansas Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is approving a proposed amendment to the Kansas regulatory program (hereinafter referred to as the “Kansas program”) under the Surface Mining Control and Reclamation Act of 1977. Kansas proposed revisions to its approved revegetation success guidelines pertaining to an additional measurement technique that could be used to determine woody stem density. The amendment is intended to improve operational efficiency.

EFFECTIVE DATE: November 27, 1995.

FOR FURTHER INFORMATION CONTACT: Brent Wahlquist, Regional Director, Mid-Continent Regional Coordinating Center, Office of Surface Mining, Alton Federal Building, 501 Belle Street, Alton, Illinois, 62002, Telephone: (618) 463–6460.

SUPPLEMENTARY INFORMATION:

I. Background on the Kansas Program
II. Submission of the Proposed Amendment
III. Director’s Findings
IV. Summary and Disposition of Comments
V. Director’s Decision
VI. Procedural Determinations

I. Background on the Kansas Program

On January 21, 1981, the Secretary of the Interior conditionally approved the Kansas program. General background information on the Kansas program, including the Secretary’s findings, the disposition of comments, and the Federal regulations at 30 CFR 916.10, 916.12 and 916.15.

II. Submission of the Proposed Amendment

By letter dated August 9, 1995 (Administrative Record No. KS–600), Kansas submitted a proposed amendment to its program pursuant to SMCRA. Kansas submitted the proposed amendment at its own initiative to improve its program efficiency. Kansas proposes to modify its requirements for determining the productivity success of trees and shrubs by amending its approved revegetation success guidelines entitled “Revegetation Standards for Success and Statistically Valid Sampling Techniques for Measuring Revegetation Success” to include an alternative sampling method for determining woody stem density. OSM announced receipt of the proposed amendment in the September 12, 1995, Federal Register (60 FR 47314), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (Administrative Record No. KS–603). The public comment period ended on October 12, 1995.

III. Director’s Findings

Set forth below, pursuant to SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are the Director’s findings concerning the proposed amendment.

Woody Stem Density

Kansas proposes to amend its revegetation success guidelines by adding an alternative method for measurement of woody stem density. This would apply to any land use where trees or shrubs would be required to be planted as part of the approved reclamation and revegetation plan. The approved guidelines currently only allow for a 100 percent count of trees and shrubs in the proposed release area. The proposed amendment would still require that 100 percent counts are necessary when the revegetation plan calls for less than 300 stems per acre and less than 10 acres. When the revegetation plan calls for more than 300 stems per acre or the release area is larger than 10 acres, the permittee has the option of either doing a 100 percent count or collecting a statistically valid sample utilizing randomly selected ½±0th acre circular plots.

The Kansas program regulations concerning statistically valid sampling methods for measuring revegetation success are found at Kansas Administrative Regulation (KAR) 47–9–1(c)(42) and adopt by reference 30 CFR 816.116, as in effect on July 1, 1990.
These regulations are essentially identical to the counterpart Federal regulations. Kansas is adding an alternative measurement technique for the determination of woody stem density for any land use where the approved reclamation plan would require the planting of trees or shrubs. The method must meet the State and Federal requirement that this measurement technique be a statistically valid sampling technique as required at 30 CFR 816/817.116(a). The Director finds that by requiring random sampling where sample adequacy is established and utilizing a 90 percent statistical confidence interval (i.e., one-sided test with a 0.10 alpha error), the proposed method is no less effective than the Federal regulations at 30 CFR 816/817.116(a).

IV. Summary and Disposition of Comments

Public Comments

The Director solicited public comments and provided an opportunity for a public hearing on the proposed amendment. No public comments were received and because no one requested an opportunity to speak at a public hearing, no hearing was held.

Federal Agency Comments

Pursuant to § 732.17(h)(11)(i), OSM solicited comments on the proposed amendment from EPA (Administrative Record No. KS-605). EPA did not respond to the request.

State Historic Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Pursuant to 30 CFR 732.17(h)(4), OSM is required to solicit comments on proposed amendments which may have an effect on historic properties from the SHPO and ACHP. Since the proposed amendment would not have any effect on historic properties, OSM did not solicit comment from the SHPO or ACHP.

V. Director’s Decision

Based on the above finding, the Director approves Kansas’ proposed amendment as submitted on August 9, 1995, concerning the Kansas alternative method for measurement of woody stem density.

The Director approves the revision as proposed by Kansas with the provision that it is fully promulgated in identical form to the rules submitted to and reviewed by OSM and the public.

The Federal regulations at 30 CFR part 916, codifying decisions concerning the Kansas program, are being amended to implement this decision. This final rule is being made effective immediately to expedite the State program amendment process and to encourage States to bring their programs into conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

VI. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

VII. List of Subjects in 30 CFR 916

Intergovernmental relations, Surface mining, Underground mining.

Brent Wahlquist,
Regional Director, Mid-Continent Regional Coordinating Center.

For the reasons set out in the preamble, title 30, chapter VII, subchapter T of the Code of Federal Regulations is amended as set forth below:
PART 916—KANSAS

1. The authority citation for part 916 continues to read as follows:
   Authority: 30 U.S.C. 1201 et seq.

2. Section 916.15 is amended by adding paragraph (p) to read as follows:

§ 916.15 Approval of regulatory program amendments.

  (p) The revision to the Kansas Vegetation Standards for Success and Statistically Valid Sampling Techniques for Measuring Vegetation Success, concerning the alternative for measuring woody stem density as submitted to OSM on August 9, 1995, is approved effective November 27, 1995.

BILLING CODE 4310–05–M

DEPARTMENT OF DEFENSE

Department of the Navy

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Amendment

AGENCY: Department of the Navy, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), to reflect that the Deputy Assistant Judge Advocate General (Admiralty) of the Navy has determined that USS COLE (DDG 67) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with certain provisions of the 72 COLREGS without interfering with its special function as a naval ship. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

EFFECTIVE DATE: October 26, 1995.

FOR FURTHER INFORMATION CONTACT: Captain R.R. Pixa, JAGC, U.S. Navy, Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332–2400, Telephone number: (703) 325–9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the Department of the Navy amends 32 CFR part 706. This amendment provides notice that the Deputy Assistant Judge Advocate General (Admiralty) of the Navy, under authority delegated by the Secretary of the Navy, has certified that USS COLE (DDG 67) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with the following specific provisions of 72 COLREGS without interfering with its special function as a naval ship: Annex I, paragraph 3(c) pertaining to placement of task lights not less than two meters from the fore and aft centerline of the ship in the athwartship direction. The Deputy Assistant Judge Advocate General (Admiralty) has also certified that the lights involved are located in closest possible compliance with the applicable 72 COLREGS requirements.

Moreover, it has been determined, in accordance with 32 CFR Parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on this vessel in a manner differently from that prescribed herein will adversely affect the vessel’s ability to perform its military functions.

List of Subjects in 32 CFR Part 706

Marine Safety, Navigation (Water), and Vessels.

PART 706—[AMENDED]

Accordingly, 32 CFR Part 706 is amended as follows:

1. The authority citation for 32 CFR Part 706 continues to read:

2. Table Four of § 706.2 is amended by:

   a. Adding the following entry to Paragraph 15:

   § 706.2 Certifications of the Secretary of the Navy under Executive Order 11964 and 33 U.S.C. 1605.

   * * * * *

3. Table Five of § 706.2 is amended by adding the following entry:
