#### Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of applications for a scientific research/monitoring permit (P45U) and a scientific research/enhancement permit (P45V).

**SUMMARY:** Notice is hereby given that the U.S. Fish and Wildlife Service in Sacramento, CA (FWS) has applied in due form for permits to take adult and juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) for the purposes of scientific research, population monitoring, and hatchery-generated enhancement.

**DATES:** Written comments or requests for a public hearing on either of these applications must be received on or before December 27, 1995.

**ADDRESSES:** The applications and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Director, Southwest Region, NMFS, NOAA, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213 (310-980-4016).

Written comments or requests for a public hearing should be submitted to the Chief, Endangered Species Division, Office of Protected Resources.

**SUPPLEMENTARY INFORMATION:** FWS requests permits under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227). FWS requests the permits to continue the projects for which a take of listed salmon is currently authorized under permit 747. Permit 747 will expire on December 31, 1995.

FWS requests a 5-year scientific research/monitoring permit (P45U) for a take of adult and juvenile, listed salmon associated with five projects being conducted by the Northern Central Valley Fish and Wildlife Office (NCVFWO) in Red Bluff, CA and a project being conducted by the Sacramento/San Joaquin Estuary Fishery Resource Office (SSJFRO) in Stockton, CA. The five projects being conducted by NCVFWO are: A census of juvenile salmonid downstream migration, the radio-tracking of spawning adults, the entrainment of juveniles at the Red Bluff Diversion Dam downstream migrant fish protection facilities, egg incubation temperature tolerance studies, and run differentiation using fish ladder counts. The project being conducted by SSJFRO is aimed at updating the knowledge of the factors influencing young salmon abundance, distribution, and survival in the estuary.

FWS requests a 5-year scientific research/enhancement permit (P45V) for a take of adult and juvenile, listed salmon associated with the propagation and captive broodstock programs at FWS's Coleman National Fish Hatchery. The objective of the propagation program is to supplement the listed, naturally-produced salmon population. Listed adult salmon are proposed to be captured and spawned in a protected hatchery environment to increase the survival of the resultant eggs and juvenile fish. The progeny of the captured adults will then be released into the wild. The purpose of the captive broodstock program is to maintain the genetic integrity of the listed salmon species in a hatchery environment. The objectives of the captive broodstock program are to provide: Protection against loss of genetic material, a source of gametes for the propagation program, a source of progeny to supplement the naturally-produced fish, security until habitat conditions in the Sacramento River improve, egg and fry for experimental purposes, and a potential tool to assist in the recovery of the species.

Those individuals requesting a hearing (see **ADDRESSES**) should set out

the specific reasons why a hearing on either application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in these application summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Dated: November 15, 1995.

Russell J. Bellmer,

*Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.*

#### Marine Mammals and Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of scientific research permit (P523A).

**SUMMARY:** Notice is hereby given that Dr. Adam Frankel, Cornell University, Bioacoustic Research Program, 159 Sapsucker Road, Ithaca, NY 14850 has been issued a permit to take (harass) several species of marine mammals and sea turtles for purposes of scientific research.

**ADDRESSES:** The permit and related documents are available for review upon written request or by appointment, in the following offices:

Permits Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713-2289);

Director, Southwest Region, NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213 (310/980-4001); and

Coordinator, Pacific Area Office, Southwest Region, NMFS, 2570 Dole Street, Room 106, Honolulu, HI 96822-2396 (808/955-8831).

**SUPPLEMENTARY INFORMATION:** On August 8, 1995, a document was published in the Federal Register (60 FR 40346) that a request for a scientific research had been submitted by the above-named individual. The request was to take (harass) several species of marine mammals and sea turtles over a 5-year period, during sound playback studies in the waters off the Kohala coast of Hawaii. The requested permit has been issued, under the authority of the Marine Mammal Protection Act of 1972 (MMPA) as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the
